INTRODUCTION

The South Carolina Historical Marker Program was officially established in 1936, thirty-one years after the state legislature first empowered the South Carolina Historical Commission, predecessor to the S.C. Department of Archives and History (SCDAH), “to have the direction and control of the marking of historical sites, or houses and localities.”

Since then, more than 1700 historical markers have been approved through the program, highlighting places across South Carolina that have been important to the history of our local communities, state, and nation. Nearly all of these markers were proposed and funded by local sponsors, who are responsible for erecting markers once they have been approved by SCDAH.

SCDAH strives to maintain the accuracy of this guidebook. Please notify the S.C. Historical Marker Program coordinator should you find any errors in transcription or inaccurate information.

COVER MARKER

R. F. W. Allston Causeway (22-38)
Pawleys Island, Georgetown County

Approved in 1994, this is one of several markers that the Pawleys Island Civic Association erected in the early 1990s along the island's Myrtle Avenue. It sits at the eastern terminus of what is today more commonly referred to as the island's south causeway, which stretches across marshland to connect the island with U.S. Highway 17.
SOUTH CAROLINA HISTORICAL MARKERS

The following list includes all markers that SCDAH has approved since the program’s establishment in 1936, as well as markers previously erected by the S.C. Historical Commission. Markers known to have been removed or relocated are noted accordingly. Recently approved markers may not yet have been installed. Marker inscriptions have been transcribed as faithfully as possible, including any typographical errors and inconsistencies in style. Relevant information (e.g. sponsor, year of approval) not inscribed on the marker has been included in footnotes as much as practical. The numbers by each entry correspond to a marker’s county code and the order in which it was approved. These numbers do not appear on many earlier markers.

1-13 Action at Pratt’s Mill/Pratt’s Mill
S.C. Hwy. 184 at the Little River, just northeast of its intersection with S.C. Sec. Rd. 1-59, Due West vicinity
Action at Pratt’s Mill (Front)
The last action of the Revolution in this part of S.C. was at Pratt’s Mill, a grist mill on the Little River owned by Joseph Pratt. On October 30, 1781, an outpost of 30 Patriots at the mill, under Capt. John Norwood, was surprised by 30 Loyalists and Cherokees under Col. William “Bloody Bill” Cunningham. Norwood, who was wounded, was the only casualty on either side.

Pratt’s Mill (Reverse)
The Patriots fled, leaving behind 30 horses and most of their weapons; the Loyalists burned the mill. The Pratt family later rebuilt the mill, which appears in Robert Mills’s *Atlas of S.C.* (1825). They later built another mill on Hogskin Creek, about 500 yds. N of the first mill. That mill, which operated throughout the 19th century, was destroyed by a flood in 1908. **Erected by the Abbeville County Historical Society, 2007**
1-14 SECESSION HILL
SECESSION AVE., NEAR ITS JUNCTION WITH BRANCH ST., ABBEVILLE

(Front) On November 22, 1860, a mass meeting on this site was one of the first held in the South after Abraham Lincoln’s election as president on November 6. A procession from the town square, numbering 2,000 to 3,000, made its way to a grove here, near the Greenville & Columbia RR depot. Many in the crowd wore palmetto cockades as bands played, militia and volunteer companies marched with flags and banners, and some units even fired cannon salutes. (Reverse) Andrew G. Magrath, arguing “the time for action has arrived,” was typical of most speakers, who called for South Carolina’s immediate secession from the Union. The meeting passed resolutions urging secession and recommended delegates to represent Abbeville District at the Secession Convention in December. This hill, then known as “Magazine Hill” for a powder magazine here, was soon renamed “Secession Hill” and has been known by that name since 1860. **1-17 QUAY-WARDLAW HOUSE**

*104 S. CHURCH ST., ABBEVILLE*  
(Front) This house, built ca. 1786, is thought to be the oldest house in Abbeville. It was built as a two-story log building by John Quay, who also ran a tavern here. He sold it ca. 1798 to James Wardlaw (1767-1842) and his wife, Quay’s stepdaughter Hannah Clarke (1778-1825). James Wardlaw was the Abbeville postmaster and Abbeville District deputy clerk of court 1796-1800, then clerk of court 1800-1838. Ten of the Wardlaws’ eleven children were born in this house.  
(Reverse) Two sons were delegates to the Secession Convention: David L. Wardlaw (1799-1873), state representative and Speaker of the S.C. House, and later a judge; and Francis H. Wardlaw (1800-1861), newspaper editor, state chancellor, and state representative, from Edgefield. This house was later owned by Col. **1-18 COLONIAL BLOCK HOUSE/FORT PICKENS**

*WASHINGTON ST., JUST SOUTH OF HEMPHILL RD., ABBEVILLE*  
COLONIAL BLOCK HOUSE (Front)  
A “block house,” a log building with a stone foundation, stood SE on Parker Creek from ca. 1767 to the 1850s. It was built by Andrew Pickens (1739-1817), later a militia general in the American Revolution, a state representative and senator, and a U.S. Congressman. Pickens married Rebecca Calhoun in 1765, moved to the Long Canes settlement, and built his home nearby.  
FORT PICKENS (Reverse)  
The block house was an outpost near the boundary between Indian lands and white settlements and was later a refuge for area families during the American Revolution. Tradition holds that in 1785 Pickens held the first court in the new Abbeville District there. After his death the old block house was popularly called “Fort Pickens” and this part of Abbeville was long known by the same name. *Sponsored by the Little River Electric Cooperative and the Abbeville County Historical Society, 2014*

*GPS Coordinates: 34° 10.95’ N, 82° 22.45’ W*

**1-19 TREATY OF LOCHABER**

*S. C. HWY 71, ABBEVILLE VICINITY*  
(Front) In October 1770, the Congress of Lochaber assembled near here at the plantation of Alexander Cameron, who was deputy superintendent of Indian affairs for the southern colonies. Over one thousand members of the Cherokee nation gathered for the treaty negotiations. The resulting agreement revised the boundary line between the Cherokee and the colony of Virginia further to the north.
The new boundary, which became known as the Lochaber Line, extended colonial land claims west of the Appalachian Mountains. These claims had generated tension between colonists and the crown since the Proclamation of 1763, which limited western settlement and angered land speculators. The Treaty of Lochaber was part of the long negotiation to extend the southern segment of the boundary further to the west. *Sponsored by the Abbeville County Visitor’s Council, 2014*

**GPS Coordinates:** 34° 11.267' N, 82° 24.670' W*

**1-20 Treaty of DeWitt’s Corner**
**S.C. Hwy 20 Nat Intersection of Corner Creek/Barkers Creek, Due West vicinity**

(Front) In May 1777 a delegation of roughly 600 Cherokees and representatives from South Carolina and Georgia met near this spot to engage in negotiations that would end fighting in the Second Cherokee War, 1776-77. On May 20, 1777 the parties signed The Treaty of DeWitt’s Corner, which provided for an end to hostilities, prisoner returns, and large land concessions by the Lower Cherokee.

(Reverse) The territory ceded included present day Anderson, Greenville, Oconee and Pickens Counties. The warfare ended by the Treaty of DeWitt’s Corner was part of the revolutionary struggle between American patriots and their British and loyalist opponents. The powerful southeastern Indian nations played an important role in the war and most sided with the British. *Sponsored by the Abbeville County Visitor’s Council, 2014*

**1-21 Mulberry A.M.E. Church**
**2758 Mount Carmel Rd., Abbeville**

(Front) The formal organization of Mulberry A.M.E. Church dates to c. 1871, but many of the founding members were formerly enslaved people who had a tradition of religious organization that stretched back into slavery. Early meetings were held under a brush arbor. By 1872 members had built a log building. A second frame church was built in 1878 and remained until it burned in 1918.

(Reverse) The current Carpenter Gothic church, with offset steeple and church bell, dates to 1919. A cemetery, located across the road from the church, was established c. 1904. The one-teacher Mulberry School was once located here and served African American students until it closed in the early 1950s. Mulberry is mother church to St. Peter, Shady Grove and St. Paul A.M.E. churches in Abbeville. *Sponsored by the Essie Strother Patterson Legacy Foundation, 2017*

**Aiken County**

**2-1 The S.C. Railroad**
**Park Ave. & Laurens St., Aiken**

* Proposed location. Location information is approximate.
(Front) The tracks of the S.C. Railroad, operated by the S.C. Canal & Railroad Company, ran here from 1833 to the 1850s. The company, chartered in 1827, began constructing a 136-mile long line from Charleston to Hamburg (near North Augusta) in 1830. Completed in 1833, the railroad was the longest in America at the time and the first to carry the United States mails. Aiken, chartered in 1835, was named for William Aiken (1779-1831), the railroad’s first president.

(Reverse) The original tracks through Aiken, one of the first “railroad towns” in the United States, ran along this street, then known as Railroad Avenue. Railroad Avenue was renamed Park Avenue in the 1850s after the tracks were moved one block south into the “Railroad Cut.” Though the S.C. Railroad flourished before the Civil War, it struggled during Reconstruction and afterwards. It was eventually absorbed into the Southern Railway in 1902. *Erected by the Aiken County Historical Society, 2010*

Hammond and eleven other farmers of this area organized the Beech Island Agricultural Club for the diffusion of agricultural knowledge and the regulation of illegal slave traffic. 2-22 GRANITEVILLE MILL
CORNER OF CANAL ST. (S.C. HWY. 191) AND MARSHALL ST., GRANITEVILLE

(Front) This mill, the largest textile mill in antebellum S.C., was chartered in 1845 and opened in 1847. It was founded by William Gregg (1800-1867), a Virginia native and advocate of industrial development who chose this site for its proximity to waterpower, granite deposits, and the S.C. Railroad. The company provided housing, a school, a store, and land for churches, creating a model mill village. Unlike most early textile mills, it was adequately funded.

(Reverse) Under Gregg’s management early Graniteville families lived under strict rules and a rigid schedule, and became a close-knit community. During the Civil War the mill made fabrics for the Confederacy. After Gregg died in 1867 while fighting a flood on Horse Creek the company was run by its board, which expanded its operations. After several changes in ownership Graniteville remains one of the oldest textile manufacturing concerns in the South. Erected by the Aiken County Historical Society, 2001

It was named for William Aiken (1779-1831), the first president of the S.C. Canal and Railroad Co. Aiken’s mild climate and accessibility by rail soon made it a health resort for visitors hoping to escape the summer heat or seeking relief from tuberculosis and other lung ailments.

(Reverse) On Feb. 11, 1865, Federal and Confederate cavalry clashed here in the Battle of Aiken. The city’s resort status was enhanced in the 19th and 20th centuries with its fame as a “Winter Colony,” created by wealthy Northerners who built houses and sports facilities such as golf courses, polo fields, racetracks, and stables. Aiken later experienced a significant population boom in the 1950s after the construction and opening of the Savannah River Plant. Erected by the Aiken County Historical Society, 2003

The reactor continued operation until final shut-down in 1964.

(Reverse) This was the first production reactor to use heavy water as the neutron moderator and coolant. It was also the first to have vertical fuel and control rod assemblies, with more than 600 positions in the reactor tank. Originally rated at 378 MW, R Reactor achieved power levels many times that. It was the largest of the SRP reactors and was a prototype for the other four. Erected by the U.S. Department of Energy, 2008

S. C. HWY. 389, EAST OF PERRY
“THE MIDDLE ROAD” (FRONT)
This road likely began as a Native American trading path that ran from the Savannah River to Charleston. A statute of 1770 established it as a public road. It ran between the forks of the Edisto from Orangeburg Bridge to the Indian Head, before continuing to the Ridge (near
modern-day Ridge Spring). A SW branch led to Augusta, while NW branches led to Long Cane Creek and Ninety Six.

3-15 Chain Gangs/Allendale Co. Jail
600 Hickory St. N., Allendale
Chain Gangs (Front)
In 1894 the S.C. legislature passed an act requiring all male prisoners sentenced to less than two years to serve their term performing hard labor on public roads. The law promised to improve rural S.C. roads, but many of those sentenced to hard labor had committed petty crimes and most were African American. A 1920 report found that the Allendale chain gang suffered poor and
unsanitary conditions. Some inmates at the Allendale Jail served on road gangs well into the 20th century.

**Allendale Co. Jail (Reverse)**
In 1919 the S.C. General Assembly issued $100,000 in bonds to fund construction of a jail and courthouse in the newly established Allendale County. Both were designed by Atlanta-based architect G. Lloyd Preacher, a Fairfax, S.C. native and graduate of Clemson College. The courthouse and jail were completed in 1922. The jail, which once stood here, housed not only prisoners, but also the jailer and jail administrator. The Allendale Co. Jail remained in use until 1971. **Sponsored by Allendale County, 2016**

Capers was born in Charleston in 1788 and became a minister with the Methodist Episcopal Church in 1809. He likely stayed on the Gillett’s land for only a brief time, but may have helped to spread the seed of Methodism here.

(Reverse) Early meetings were held under a brush arbor. Elijah Gillett, at the urging of his wife Elizabeth Scarbrough Gillett, donated land and lumber to erect a permanent meeting house, which they deeded to the Methodist Church. The Gilletts are buried 3 ½ miles N. of the church. The meeting house was remodeled in 1910, but retains original floors, wainscoting, and pulpit. **Sponsored by the Gillette Church Family, 2018**

**3-17 Swallow Savannah Methodist Church**

*412 Walnut St. W., Allendale*

(Front) This church first organized c.1815, when members met in a log house 2 mi. S that was adjacent to a sheet of water known as “Swallow Savannah,” the church’s namesake. Local preacher John McFail was likely instrumental in the church’s organization. Through the 1800s, members used several sites along Old Augusta Road including a church built on land given by Dr. Cornelius Ayer and dedicated in 1848. The church cemetery remains there.

(Reverse) The church was part of the Black Swamp Circuit until 1855, when the Allendale Circuit was formed. In 1880, members made plans to move to Allendale, then a growing railroad depot town. A white clapboard church was built at this site after Lawrence Williams donated the land in 1890. That building burned in 1942 and was replaced by the current church, which was dedicated in 1946. The Fellowship Hall was built in 1961. **Sponsored by Swallow Savannah United Methodist Church, 2019**

*E. side of Bluff Rd., just S. of Coosawhatchie River, Allendale*
This cemetery was est. by Swallow Savannah Methodist Church, which formed c.1815 at a log house 1 mi. S. The church was adjacent to a sheet of water known by the late 1700s as “Swallow Savannah,” supposedly for the many swallows that gathered there. Members began worshipping at this site by 1848, when a church was dedicated on land donated by Dr. Cornelius Ayer.

The church moved to the town of Allendale c.1890 but continued to use this cemetery for burials. Upon the election of a cemetery committee in 1894, a survey was completed that formalized burial plots. In 1898, a chapel was built at the cemetery using materials from the old church building. The cemetery has been expanded over the years and includes church members and non-members alike. **Sponsored by Swallow Savannah Cemetery Committee, 2019**

GROUNDS OF THE OLD ANDERSON COUNTY COURTHOUSE, COURTHOUSE SQUARE, MAIN ST., ANDERSON
(Front) Anderson was dubbed "The Electric City" in 1895 when William C. Whitner, an engineer and native of Anderson, built a hydroelectric power plant which was the first in the South to transmit electricity over long distance lines. The plant, in McFall's Mill at High Shoals on the Rocky River 6 mi. E, supplied power to light the city and also operated several small industries in Anderson. In 1897 Whitner replaced the [...] (Reverse) [...] experimental plant with a larger generating station at Portman Shoals 11 mi. W on the Seneca River. The extra power from this plant powered Anderson Cotton Mills and a streetcar line which was the forerunner of the Piedmont & Northern RR. (Forward) Buford’s Bridge, the earliest settlement in what is now Bamberg County, was established as early as 1792, when William Buford maintained a bridge and operated a ferry over the Salkehatchie River. It grew throughout the nineteenth century, with several residences, four stores, two taverns, a boarding house, a Masonic lodge, and Mizpah Methodist Church here by the 1850s.

(Reverse) On February 3-5, 1865, as Gen. W.T. Sherman’s Federals advanced toward Columbia, units of Gen. J.A. Logan’s XV Corps approached Buford’s Bridge. Gen. Joseph Wheeler’s Confederate cavalry burned the bridge, then evacuated the earthworks here before Logan arrived on Feb. 4th. Federals destroyed most of the buildings in the area to build bridges and left only Mizpah Methodist Church intact.

**CONFEDERATE HWY. (S.C. HWY. 641) AT THE ENTRANCE TO RIVERS BRIDGE STATE HISTORIC SITE, EHRHARDT VICTORY**

_BATTLE OF RIVERS BRIDGE_ (Forward)

On February 2-3, 1865, as Gen. W.T. Sherman’s Federals advanced toward Columbia, units of Gen. F.P. Blair’s XVII Corps attempted to cross the Salkehatchie River at Rivers Bridge. The Confederate defenders there, in Gen. Lafayette McLaws’s division of the Dept. of S.C., Ga., and Fla., delayed the Federals for almost two days. Each side lost about 100 men killed, wounded, or captured.

_RIVERS BRIDGE MEMORIALS_ (Reverse)

In 1876 local men reburied the Confederate dead in a mass grave a mile from the earthworks and formed the Rivers Bridge Confederate Memorial Association. Their annual services commemorated the battle and the Southern dead. The Association also preserved the battlefield, deeding it to the state in 1945 as Rivers Bridge State Park, now Rivers Bridge State Historic Site.

(Front) Woodlands was the country home of William Gilmore Simms (1806-1870), the most prominent and prolific writer of the antebellum South, from 1836 to his death. A novelist, poet, historian, critic, and essayist best known for his novels about colonial and Revolutionary S.C., Simms was described as “the ornament and the pride of the State he loved so well” at his death in 1870.

Woodlands, described in a Simms poem as “these grand old woods,” was designated a National Historic Landmark in 1975.

**GEORGE’S CREEK RD. AND EHRRHARDT RD. (S.C. SEC. RD. 5-22), GOVAN VICINITY**

(Front) Mountain Home Plantation, named for the hill on which it is located, was established before the Civil War. In 1859 Samuel J. Hartzog (1823-1890) bought the plantation from his brother Joseph (1826-1862), and built this two-story brick house that same year, at a cost of $2,993.08. It was originally a Greek Revival house with a full-width two-story portico and turned posts.

(Reverse) Cotton grown and processed here was hauled by wagon to the railroad at Graham’s Turn Out (now Denmark). Samuel and Mary Hartzog’s sons Henry Simms Hartzog (1866-1953), born here, was the third president of Clemson College (now Clemson University), 1897-1902. 5-18 Bamberg County Courthouse
2959 Main Hwy. (U.S. Hwy. 301), Bamberg

(Front) Bamberg County, named for Gen. Francis Marion Bamberg, was formed in 1897. One of the first projects undertaken was the construction of a new courthouse and jail. The construction was financed by the City of Bamberg in return for the county seat being located here. Designed by architect L.F. Goodrich, the courthouse is built of red brick with solid masonry walls that measure two feet thick.

(Reverse) The original location of the courthouse was on the western side of North Main St. When Hwy. 301 was relocated, however, it ran directly through the courthouse grounds. It was ultimately decided to move the massive building across the highway. Work began in 1950 and the total cost of moving the building 300 feet was $25,000. At that time the building was also remodeled, giving it a more modern appearance. **Sponsored by Bamberg County & Historic Society of Bamberg County, Inc., 2019**

7-34 FORT HOWELL
BEACH CITY RD., JUST SOUTHWEST OF ITS JUNCTION WITH DILLON RD., HILTON HEAD ISLAND
(Front) This Civil War fort, named for Gen. Joshua Blackwood Howell (1806-1864), was built by the U.S. Army to defend Hilton Head Island and the nearby freedmen’s village of Mitchelville from potential Confederate raids or expeditions. That village, just east of here, had been established by Gen. Ormsby M. Mitchel in the fall of 1862 and was named for him after his death.

(Front) This fort was an enclosed pentagonal earthwork with a 23’ high parapet and emplacements for up to 27 guns. It was built from August to November 1864 by the 32nd U.S. Colored Infantry and the 144th N.Y. Infantry. Though Fort Howell never saw action, it is significant for its design and its structural integrity. It was listed in the National Register of Historic Places in 2011. 7-35 WILLIAM SIMMONS HOUSE
GULLAH MUSEUM OF HILTON HEAD ISLAND, 187 GUMTREE DR., HILTON HEAD ISLAND
(Front) This house, built in 1930, is typical in materials and methods of construction of those built on the S.C. Sea Islands from the end of the Civil War to the mid-20th century. It was built on land bought after 1865 by William Simmons (ca. 1835-1922). Simmons, born a slave, had served in the U.S. Army during the war, enlisting in the 21st U.S. Colored Infantry as Ira Sherman.
(Reverse) William Simmons’s granddaughter Georgianna Jones Bryan (1900-1989) built this house in 1930 for her brother, William “Duey” Simmons (1901-1966). It illustrates everyday life and the persistence of Gullah culture in an African-American farm community until after a bridge was built from the mainland in 1956. It was renovated in 2010-11 as the Gullah Museum of Hilton Head Island. *Erected by the Gullah Museum of Hilton Head Island, 2011*

7-36 **FIRST PRESBYTERIAN CHURCH**  
**CORNER OF CHURCH & NORTH STS., BEAUFORT**  
(Front) Early attempts to establish a Presbyterian church in Beaufort, in the 1740s and 1880s, were unsuccessful. The first permanent congregation was founded in 1912 by 16 charter members. In 1921, when it acquired this lot, Rev. A.P. Toomer put up a sign with the Old Testament verse “the people had a mind to work.” This Colonial Revival church, built in 1928-29, was designed by architect James H. Sams (1872-1935).  
(Reverse) Notable architectural features include simple clapboard siding and clear arched windows. Members completed the interior, with Rev. F.B. Mayes (minister 1929-1949) as chief carpenter and Elder J.W. Logan in charge. The 1947-48 chancel arches were built by the craftsmen who built the U.S. Naval Hospital. In 1988 First Presbyterian gave funds and members to help found Sea Island Presbyterian Church. *Sponsored by the Congregation, 2012*

**COMBAHEE RIVER RAID** (Front)

On June 1-2, 1863, a Federal force consisting of elements of the 2nd S.C. Volunteer Infantry (an African-American unit) and the 3rd Rhode Island Artillery conducted a raid up the Confederate-held Combahee River. Col. James Montgomery led the expedition. Harriet Tubman, already famous for her work with the Underground Railroad, accompanied Montgomery on the raid.

**FREEDOM ALONG THE COMBAHEE** (Reverse)

Union gunboats landed 300 soldiers along the river, and one force came ashore here at Combahee Ferry. Soldiers took livestock and supplies and destroyed houses, barns, and rice at nearby plantations. **7-40 FIRST AFRICAN BAPTIST CHURCH**
**601 NEW ST., BEAUFORT**

(Front) This church, founded in 1865, grew out of an antebellum praise house for black members of the Baptist Church of Beaufort. During the Civil War, after the Federal occupation of the town, it hosted a school for freedmen. Rev. Arthur Waddell (1821-1895), its founding pastor, had come to S.C. from Savannah, Ga. In 1867 Rev. Waddell and two black ministers from Savannah formally organized this church.

(Reverse) In 1885 the congregation, with more than 900 members, built this “handsome and commodious” Carpenter Gothic church. Rev. Waddell continued to serve this church until he retired in 1894. At his death in 1895 First African Baptist was described as “one of the most aristocratic colored churches.” Robert Smalls (1839-1915), Civil War hero, state legislator, and U.S. Congressman, was its most prominent member. **Sponsored by the Beaufort County Historical Society, 2013**

(Front) This building was built ca. 1896 by the David Hunter Post No. 9, Grand Army of the Republic (G.A.R.). The G.A.R., founded in 1866, was a fraternal society for veterans of the Union army and navy, with white and black posts. David Hunter Post was founded in 1888 by African-American veterans, many of them former slaves on Sea Island plantations who had been soldiers in the United States Colored Troops in the Civil War.

* Proposed location. Location information is approximate.
The post was named for Gen. David Hunter (1802-1886), who had organized the nucleus of the 1st S.C. Volunteers (Colored) in 1862. Robert Smalls (1839-1915), Civil War hero, state legislator, militia general, and U.S. Congressman, was a post officer. 7-42 Cherry Hill School
210 Dillon Rd., Hilton Head Island

(Front) This one-room frame school, built ca. 1937, was the first separate school building constructed for African-American students on Hilton Head Island. It replaced an earlier Cherry Hill School, which had held its classes in the parsonage of St. James Baptist Church. After the black community on the island raised funds to buy this tract, Beaufort County agreed to build this school.

(Reverse) This was an elementary school with one teacher, with an average of about 30 students. It had grades 1-5 when it opened in 1937, adding grade 6 the next school year. 7-43 The Burning of Bluffton
Dubois Park, W. side of Boundary St., Bluffton

(Front) Bluffton, an antebellum planters’ summer village, was virtually abandoned by its seasonal and year-round inhabitants when Federal forces captured Beaufort and Port Royal in November 1861. Confederate forces used it as an outpost to watch Port Royal Sound and the Charleston & Savannah RR. Early on June 4, 1863, an expedition of some 1,000 Federals landed at Hunting Island Plantation, then marched to Bluffton.

(Reverse) Confederate pickets raised the alarm but could not offer immediate resistance and the Federals surprised a small Confederate force camped on the May River. A brief skirmish ended when shells from a Federal gunboat drove the Confederates away. Federal infantry then burned some 40 houses and other outbuildings, about two-thirds of the village. The Charleston Mercury called the Federal raid on Bluffton “an outrage.” Sponsored by the Lowcountry Civil War Round Table, 2013

7-44 Beth Israel Synagogue
401 Scott St., Beaufort

(Front) Beth Israel (House of Israel) Congregation was founded and chartered in 1905. Beaufort’s Jewish community dates before the American Revolution, but grew most rapidly from the 1880s to the 1930s as more families arrived from Eastern Europe. Services were held in
private homes and later in the Masonic Hall on Bay St., with some ceremonial functions held in
the Beaufort Arsenal on Craven St.
(Reverse) This frame synagogue was built by members of the congregation and dedicated in
1908, in ceremonies conducted by Rabbis J.J. Simonhoff of Charleston and George Solomon of

*CORNER OF CARTERET AND DUKE STS., BEAUFORT*
(Front) This Greek Revival church, built in 1846, dedicated as “St. Peter the Apostle Church,” is
the oldest Catholic church in Beaufort County. Michael O’Connor (1798-1850), a native of
Ireland who came to Beaufort in 1822, built it and deeded the church and lot to the bishop. Its
first pastor was Rev. J.J. O’Connell (1821-1894), author of *Catholicity in the Carolinas and

(Reverse) The brick wall was built in 1857 by local craftsman Franklin Talbird Jr. During the
Civil War, the church housed a school for freedmen. The Gothic trefoil window was added in

(Front) This 5,200-acre island lies between the Cooper and New Rivers. Spanish and English
explorers saw it in 1521 and 1663; English arrivals received grants ca. 1700. Indigo was the main
crop before the American Revolution, when most planters here were Loyalists. Sea island cotton
was the main crop after 1790. In 1861, when Union forces captured the sea islands, planters
abandoned Daufuskie Island.
(Reverse) Freedmen during and immediately after the Civil War, and then their descendants,

**7-47 Gardens Corner**
*JUNCTION OF U.S. HWYS. 17 AND 21, GARDENS CORNER*
Gardens Corner was a junction of two significant roads long before the American Revolution. The King’s Highway (now U.S. Hwy. 17) ran from Charleston to Savannah, while Shell Road (now U.S. Hwy. 21) ran from here to the Port Royal Ferry and on to Beaufort and Port Royal. By 1795 the junction was named for Benjamin Garden (1736-1789), whose Fairfield Plantation was nearby.

Elements of opposing armies camped, marched, and skirmished nearby during the American Revolution and again during the Civil War. Gardens Corner, long a popular stop for travelers, boasted a store and inn for most of the 19th century and the Gardens Corner Restaurant and Court 1948-1970. This 756-acre plantation was established before the American Revolution by planter Benjamin Garden (1736-1789), for whom Gardens Corner was later named. Garden was also an avid sportsman, well known in the lowcountry for raising and racing thoroughbred horses. He served in the Lower Granville County Regiment of the S.C. Militia as early as 1756.

Benjamin Garden represented Prince William’s Parish in the 1st and 2nd Provincial Congresses 1775-76 and the 1st General Assembly in 1776. He was Lt. Colonel of the Lower Granville County Regiment ca. 1775-78, then colonel 1778-80. This church, established in 1833, was the first Methodist church in Beaufort and was founded as a mission to slaves and free blacks here and on the neighboring Sea Islands. The congregation had both black and white members but many more black members in the antebellum era. This church, first built in the “meeting house” form common to the Methodist church, was dedicated by Bishop William Capers in 1849.

In 1861, after the Federal occupation of Beaufort and the Sea Islands, this church hosted a school for freedmen and continued to serve its black members. After the Civil War, it was formally affiliated with the Methodist Episcopal Church, the Northern Methodist church 1844-1939. Its first black minister was appointed in 1873, during Reconstruction. The Port Royal Agricultural School, later the Beaufort County Training School, operated nearby 1901-1955. 7-51 **Bluffton**

100 FT. W OF SW CORNER OF MAY RIVER RD. AND CALHOUN ST. INTERSECTION, BLUFFTON

(Front) Originally known as May River, and later as Kirk’s Bluff, Bluffton was settled as a resort town where planters could escape the hot, malarial summers of lowcountry plantations. The streets were laid out in the 1830s and much of the early development took place along Calhoun and Bridge Streets. Bluffton’s commerce was largely a result of the river trade, and a steamboat landing completed by the early 1850s served to increase traffic and spur growth.

(Reverse) During the Civil War, Union forces set fire to much of the town during a raid and short battle on June 4, 1863. After the war, Bluffton emerged as a local commercial center with a number of general stores operating in the town. New transportation networks diverted traffic away from the river by the mid-20th century and trade declined. The rise in tourism since the 1990s has served as a catalyst for Bluffton’s reemergence as a resort destination. **Sponsored by the Bluffton Historical Preservation Society, 2014, replacing a marker (7-2) placed by the Beaufort County Historical Society (n.d.)**

Berean Presbyterian Church was founded by Samuel J. Bampfield, an influential African American political figure during Reconstruction. Bampfield served in the S.C. House of Representatives, was Beaufort’s postmaster, and clerk of the county court. In 1892 the congregation purchased this lot and constructed a church in the Gothic Revival style. Solomon P. Hood, who later was appointed U.S. Minister to Liberia, was the first pastor.

7-53 INTRACOASTAL WATERWAY
FREEPORT MARINA, I FREEPORT RD., DAUFUSKIE ISLAND
(Front) Archeological evidence suggests human activity on Daufuskie Island as early as 12,000 B.C., with seasonal habitation tied to the harvesting of coastal resources. Early European inhabitants also realized the importance of the coastal waterways for navigation and transportation, utilizing the tidal waters as an intracoastal highway between Charleston and Savannah.
(Reverse) Later improvements would formalize and extend this inland water route, and this section of the Cooper River is a small portion of what is now the Intracoastal Waterway (ICW), a 3,000 mile long inland shipping channel that stretches along the East and Gulf Coasts. FORT MITCHEL
65 SKULL CREEK DRIVE, HILTON HEAD
(Front) Fort Mitchel was built by the U.S. Army in 1862. It was an earthen fortification of lunette design, open at the rear with two faces forming a salient angle and two flanking sides. It was designed to house five or six heavy guns and was positioned strategically to control Skull Creek and protect the approach to the U.S. Navy coaling station at Seabrook Landing, one mile NE of this spot.
(Reverse) Originally named for its designer, Capt. Quincy Gillmore, Ft. Mitchel was renamed in honor of Maj. Gen. Ormsby Mitchel in 1863. Mitchel briefly commanded Union forces on Hilton Head before he died of yellow fever in Oct. 1862. The introduction of ironclad ships later in the war made the small battery at Ft. ### 7-57 Cyrus Garvin/Cyrus Garvin House

**Bluffton Oyster Factory Park, Wharf St. near intersection with Bridge St., Bluffton**

**Cyrus Garvin (Front)**

Little is known of Cyrus Garvin’s early life. He was likely born into slavery, possibly on a plantation of the Baynard family. Garvin is notable for having amassed considerable status and property after emancipation. In 1868 he was acting as an agent on Ephraim Baynard’s Montpelier plantation. By 1870 he was farming 75 acres and that number had risen to 100 ten years later. In 1878 he acted as an agent for St. Matthews Baptist Church, helping them to acquire land in Bluffton.

**Cyrus Garvin House (Reverse)**

Cyrus Garvin built the house located here c. 1870 and it is believed to be the oldest extant dwelling built by Freedpeople in Bluffton. The extended hall-and-parlor design was a vernacular form common to the low country. By 1880 Garvin lived here with his wife Ellen, their son Isaac, and Isaac’s wife Janie and son Paul. Janie, who died in 1954, was the last person to inhabit the house, though the Garvins remained owners until 1961. The Beaufort Co. ### 7-58 Baptist Church of Beaufort

**600 Charles St., Beaufort**

**Front** The Baptist Church of Beaufort descends from Euhaw Baptist Church on Edisto Island. In 1794 the first meeting house was built on this site. In 1795 Henry Holcombe moved to
Beaufort and became the first mission pastor. The Beaufort Baptist Church was formally constituted as an independent church in 1804. The first burial was in 1809. Prior to the Civil War, 3,557 of 3,723 members were enslaved people. (Reverse) The current Greek Revival building dates to 1844 and was constructed under the pastorate of Richard Fuller, who served 1833-1847. During the Civil War the church was a Union Army hospital for black troops. In Dec. 1862, Rev. Solomon Peck read the preliminary Emancipation Proclamation from the pulpit to an audience of escaped slaves and black soldiers. **7-59 Lady’s Island Oyster Factory**  
106 Sunset Blvd, Beaufort  
(Front) The eastern oyster launched the Beaufort Co. commercial seafood industry. The first canning factory on this site, for which Factory Creek was named, was begun in 1883. Oysters were harvested from Sept. to May. Tomatoes and okra were canned in the summer. After the hurricane of 1893 the oyster industry became the largest employer in the county, providing jobs to approximately 3,500 Sea Islanders.  
(Reverse) By 1929, this factory was the largest producer of cove oysters in the world. L.P. Maggione bought the factory in 1917. In the 1950s it had over 300 employees, canning oyster products, tomatoes, and okra. African American migration to northern states in the early-to-mid 20th century, accompanied by die off in oyster beds, led to decline of the industry and the workforce shrank to 25. **7-60 Hilton Head Rear-Range Lighthouse**  
Leamington Ln., Hilton Head Island  
(Front) The Rear Lighthouse of the Hilton Head Range Light Station was built in 1879-1880 by the U.S. Light House Board. Its light, which stood 92-feet above sea level, was visible from 15 miles away and once served to guide shipping vessels in Port Royal Sound. This tower was once part of a complex that also included a keeper’s house and forward beacon, which was located more than 1 mile in front of this position.  
(Reverse) Sailors entering Port Royal Sound would steer their ships until the lights from the rear tower and forward beacon aligned. **7-61 Mary Field School**  
203 School Rd., Daufuskie Island
Following Emancipation, education was a priority for African American families on Daufuskie. Adults and children attended school at First Union African Baptist Church 1872-1934. Church families purchased land in 1930 and by 1933 had raised funds to build a school. Workers from the island built the school. The two-room Mary Field School opened in 1934 with grades 1-6.

Mary Field became a Beaufort Co. school in the 1950s. Miss Frances Jones taught on the island 1930-1969 and educated several generations of Daufuskie families. Author Pat Conroy was briefly a teacher here 1969-70 and his novel *The Water is Wide* was based on his experience. In 2009 the former school building was renovated to be used for church functions and as a community center. *Sponsored by Daufuskie Island Historical Foundation, 2018*

### 7-62 Beaufort College*
**801 Carteret St., Beaufort**

(Front) Beaufort College, a college preparatory academy founded in 1795, occupied this Greek Revival building from 1852 to 1861. The School opened in 1804 on Bay Street, but closed in 1817 after a yellow fever epidemic, reopening in 1820 at Newcastle and Craven Sts. This building designed by John Gibbs Barnwell II featured two classrooms, two offices, and a library modeled after the one at S.C. College, now the South Carolina Library at the University of S. Carolina.

(Reverse) Beaufort College closed in the fall of 1861 when U.S. troops occupied the city. Its library was sent north and stored at the Smithsonian Institution but the books burned. During the Civil War it was a school for former slaves and a hospital for Federal troops. The college trustees regained control after the war. It was a private school for whites until it became a public elementary school in 1909. It became the Beaufort campus of the University of S.C. in 1959.

### 7-63 Tidalholm
**1 Laurens St., Beaufort**

(Front) This house was commissioned by Edgar Fripp (1806-1860) and completed c.1853. Based upon architect Samuel Sloan’s designs, it was built in the Italianate style, with a prominent central cupola, and served as the “town home” for Fripp and his wife Eliza (1810-1861). Fripp was a substantial Sea Island Cotton planter, who owned Seaside Plantation on St. Helena Island. During the Civil War the house served as U.S. Hospital #7, which provided care for officers. (Reverse) The house suffered severe damage from the Sea Island Hurricane of 1893. The cupola and gables were then incorporated into the roof, and a second floor piazza typical of the “Beaufort Style” was added. In the 1920s it was named “Tidalholm,” meaning home by the river, and served as a popular seasonal guest house and retreat. In the late 20th century it was the backdrop for several Hollywood films including “The Great Santini” (1979) and “The Big Chill” (1983). *Sponsored by Historic Beaufort Foundation, 2019*

(Front) This church grew out of services held as early as 1811, at first in a brush arbor and later at a campground nearby. Ministers riding the Cooper River and Berkeley circuits served this congregation for many years. The first sanctuary here was given to the Methodists by area Episcopalians in 1847. Called Black Oak, it had been built in 1808 as a chapel of ease for Biggin Church.
(Reverse) In 1852 Charles Macbeth (1805-1881), the planter and politician for whom this community was named, donated a 15.3-acre tract to the congregation. The cemetery, which dates from the 1830s, includes the graves of Revs. John Bunch, who served 1837-38, and William J. Hutson, who served in 1870. The present sanctuary was built in 1927, during the pastorate of Rev. D. Tillman Rhodes; it was renovated in 1977. 8-38 Casey (Caice)

Berkeley County Library, 325 Old Moncks Corner Rd., Goose Creek

(Front) This African-American community grew up around a Methodist church founded during Reconstruction by a freedman named Casey or Caice. Its early services were under a tent, but a log cabin served as its first permanent church. In 1868 T.W. Lewis and other trustees bought a 25-acre tract between S.C. Hwys. 176 and 52. After a frame church replaced the cabin, Rev. William Evans (1822-1887) became the first permanent ordained minister at Casey Methodist Church.

(Reverse) Casey Methodist Church was destroyed by arson in 1977; the adjacent cemetery is all that remains. Casey School, a three-room frame school built next to the church in the 1930s, taught area children in grades 1-7 until it burned in 1966. The Goose Creek Branch of the Berkeley County Public Library was built on the site in 1991. The Casey Fellowship Hall, across Moncks Corner Road from the church, was also a vital institution in the Casey community for many years. Erected by the City of Goose Creek, 2006

**HOWE HALL PLANTATION** (Front)

Howe Hall Plantation, an inland rice plantation, was established here by Robert Howe, who came to S.C. in 1683. His first house here was later described as “tolerable.” Howe’s son Job (d. 1706) built a brick plantation house here once described as “commodious” but spent most of his time in Charleston. Howe served in the Commons House of Assembly 1696-1706 and was Speaker 1700-05. He died of yellow fever in 1706.

**HOWE HALL** (Reverse)

By the late antebellum period James Vidal owned it and other nearby plantations. During Reconstruction Vidal sold parcels to African American societies and to individual freedmen. This area became an African American farming community for many years. **8-44 LIBERTY HALL PLANTATION**

*101 Woodward Rd., Goose Creek* (Front)

This inland rice plantation has its origins in a 1683 grant. In 1726 Nathaniel Moore and his wife sold a 900-acre parcel to Isaac Mazyck (d. 1736). Mazyck’s son Benjamin (d. 1800), a rice planter, cattleman, and merchant, consolidated several nearby plantations and lived here until his death, when his son Stephen (1787-1832) inherited the plantation. Stephen’s widow Mary sold it to Dr. Charles L. Desel in 1834.

(Reverse) Dr. Charles Lewis Desel (1795-1855), a planter and physician, owned this plantation for more than twenty years. His friend Rev. John Bachman (1790-1874), a Lutheran minister and naturalist, brought artist and naturalist John James Audubon (1785-1851) here several times to hunt and observe birds and wildlife. Boochawee Hall, created in 1683 by a 2,400-acre grant, was owned by two colonial governors, father and son. James Moore (d. 1706), a trader and planter, served on the Grand
Council and later led “the Goose Creek Men,” an anti-proprietary faction. Appointed governor in 1700, Moore commanded an expedition to Florida, burning St. Augustine in 1702. Moore, replaced as governor by Sir Nathaniel Johnson in 1703, returned to the council and held a seat there until his death.

(Reverse) James Moore Jr. (d. 1724) served three terms in the Commons House of Assembly and as an officer in the Tuscarora War (1711-13) before commanding the provincial forces in the Yemassee War (1715). In 1682 the Lords Proprietors granted 3,000 acres here, on a branch of the Back River, to Joseph Thorogood (d. 1684). Though Thorogood only owned the plantation two years and his widow Jane sold it after his death, it was called “Thorogood” for most of the 19th century. By the 1720s Andrew Allen owned Thorogood, established a profitable rice plantation here, and was also engaged in the local fur trade.

Mount Holly Plantation (Reverse)
Thorogood passed to John Deas (d. 1788) and his son John, Jr. (1761-1790). It, Mount Holly, and Cyprus plantations remained in the Deas family until 1824. ### 8-59 Goose Creek Bridge

**At the Intersection of the Oaks Ave. and NAD Rd. (Naval Munition Depot Rd.), Goose Creek**

(Front) The first bridge here, in use by 1680, had a raised road at either end and was built from split logs with the flat sides up, covered by sand or clay. Traffic over Goose Creek increased significantly after St. James, Goose Creek Church was built 200 yds. S in 1714-19. By the 1750s the bridge had to be replaced every few years. In 1780 British troops occupying The Oaks Plantation nearby guarded the bridge, a strategic point on the road to and from Charleston.

(Reverse) The bridge was torn down and replaced by a larger covered one shortly after the Revolution. A later covered bridge, built in 1851, was 200 ft. long, on brick piers, with a plank floor and cypress shingle roof. It was burned in 1865 by Confederates attempting to delay Federals in the area. Another bridge here, built some years after the Civil War, was uncovered, with a simple railing. By 1925 a new U.S. Highway 52 included a bridge upstream and W. of this crossing. *Erected by the City of Goose Creek, 2008*

### 8-60 Spring Grove Plantation

**Cypress Gardens Rd. at the Spring Grove Plantation Clubhouse, Moncks Corner**

(Front) Spring Grove, an inland rice plantation on the Back River, was part of a 1706 grant by the Lords Proprietors to John Barnwell. By 1727 the tract passed to planter and state representative Joseph Wragg (d. 1751) as part of his Dockton plantation. Spring Grove was not a separate plantation until 1793, when it included 1,406 acres, owned by planter and state representative George Keckley (d. 1829).

(Reverse) Spring Grove remained in the Keckley family until 1843, when it was purchased by William Bell, who owned Cypress Grove and Pine Grove plantations nearby. Bell’s son sold it soon after the Civil War. Spring Grove was later owned by the E.P. Burton Lumber Co., then the Cooper River Mining & Manufacture Co., and later the Pine Grove Hunting Club. ### 8-61 The Yamasee War at Goose Creek, 1715

**Foster Creek Park, adjacent to Goose Creek Primary School, 200 Foster Creek Rd., Goose Creek**

(Front) In April 1715 Yamasee warriors killed government agents and traders who had come to meet with them at Pocotaligo, in present-day Beaufort County. Others killed colonists and raided plantations and farms at Port Royal, initiating the Yamasee War. Catawbas and Cherokees soon launched raids on other white towns and settlements, and many whites in Goose Creek fled to Charleston or barricaded themselves in their houses.
Capt. Thomas Barker, who lived 1.5 mi. N, left Goose Creek on May 15 with 102 militia, intending to meet the Congarees near the Santee River. He and 26 men were killed in an ambush on May 16. On June 13 Capt. George Chicken and 120 cavalrymen of the Goose Creek militia ambushed a war party 20 mi. W near Wassamassaw, killing 40-60 and scattering the rest. The Catawbas would not threaten Goose Creek again. Erected by the City of Goose Creek, 2008

8-62 WASSAMASSAW
At the intersection of State Rd. (U.S. Hwy. 176) and Jedburg Rd., Jedburg vicinity

Wassamassaw, with several variant spellings during the colonial era, is a Native American word thought to mean “connecting water.” It first referred to the large cypress swamp here, but eventually referred to the community that grew up nearby in the Anglican parish of St. James, Goose Creek. Plantations laid out by the English and later by the Huguenots flourished before the Revolution.

(Reverse) The swamp was almost impassible for most of the colonial period, but the Wassamassaw Road ran just below the swamp between here and Goose Creek. A Chapel of Ease was built nearby shortly after the Yamasee War of 1715, and a free school was founded in 1728. The “Wassamassaw Cavalry,” a militia company founded in 1857, later saw Confederate service as Company D, 2nd S.C. Cavalry. Erected by Berkeley County, 2009

8-63 FRENCH HUGUENOT PLANTATION/FREEDMEN’S PLANTATION
112-114 Westover Dr., Goose Creek

French Huguenot Plantation (Front)
Abraham Fleury, sometimes called Abraham Fleury Sieur De La Plaine, settled here about 1680. He was one of the first French Huguenot planters in Carolina. The Huguenots, Protestants who escaped the persecution of Catholic France, immigrated with encouragement from the Lords Proprietors, who promised them opportunity and religious freedom. They later assimilated into the predominantly Anglican society of the lowcountry.

Freedmen’s Plantation (Reverse)
This tract was often called Cherry Hill after it was merged into that plantation before the Revolution. In 1858 freedman and planter Lamb Stevens (1766?-1868) added it to his extensive holdings. Stevens, born into slavery in N.C., later purchased his freedom and moved to S.C. He owned as many as 30 slaves, some of them relatives he bought in order to protect them and their families. Lamb died in 1868 at the age of 102. Erected by the City of Goose Creek, 2010

8-64 White House Plantation
At the Naval Weapons Station Charleston, Goose Creek

(Front) The first plantation here was established in 1731 by Alexander Vanderdussen (d. 1759), British army officer and member of the Royal Assembly. William Johnson (d. 1818), later a planter and state representative, bought it in 1769. Johnson demolished Vanderdussen’s ruined
house and built a new one, which he named “White House,” on the old foundation. He grew rice and indigo here for many years.

(Reverse) Johnson, an ardent Patriot, served in the Provincial Congress and the S.C. House of Representatives during the Revolution. He was an artilleryman during the Siege of Charleston in 1780, was held prisoner in exile for more than a year, then was reelected to the S.C. House several times after the war. White House eventually fell into ruins, and in 1941 the U.S. Navy acquired this property for its Naval Weapons Station. *Erected by the City of Goose Creek, 2010*

(Front) This plantation was established in 1701 by a grant of 500 acres near Goose Creek to Lewis Lansac from the Lords Proprietors. In 1757 the original grant, with an additional 1,000 acres that had been owned by the Wilson and Godin families, was acquired by rice planter and legislator Peter Manigault (1731-1773). Manigault named his plantation for a stream that ran through his rice fields down to Goose Creek.

(Reverse) Peter Manigault’s two-story house sat on a nearby ridge on the bank of Goose Creek. Manigault, longtime member of the Commons House of Assembly, was Speaker of the House 1765-1772 and at his death the wealthiest man in North America. His son Gabriel (1758-1809), a planter and legislator, was best known as an amateur architect. W.J. That school, built in 1918-1920 at a cost of $6,700, had been partially funded by the Julius Rosenwald Foundation. The new brick school, built here in 1955 at a cost of almost $400,000, opened with an enrollment of more than 500 students in grades 8-12.

(Reverse) Joseph H. Jefferson, Sr. (1919-1983) was the only principal of Berkeley Training High School at this location, from 1955 to 1970. **8-67 Friendship Methodist Church**

*1315 Ranger Dr. (S.C. Hwy. 6), Cross Vicinity*

* Location information is approximate.
This church, one of the oldest Methodist organizations in Berkeley County, was formally organized about 1825. Circuit riders had preached in the area for more than forty years, and services held under a brush arbor here inspired participants to form a congregation and build their first church, a pole building.

By 1843 the church built a large frame sanctuary, later remodeled in 1914-16. During Reconstruction its black members left to form their own congregations, among them Jerusalem Methodist Church. The present brick sanctuary, its construction delayed by the Santee Cooper project, was built in 1938 and dedicated in 1939. *Erected by the Congregation, 2011*

**Fairlawn Plantation** (Front)

Fairlawn Barony, sometimes called “Fair-Lawn,” was granted to Peter Colleton, whose father John had been one of the original Lords Proprietors of the Carolina colony. John’s grandson John (1679-1754), known as “The Honorable,” was a planter and member of the Grand Council and the first Colleton to live in S.C. He built a large brick house here, later described by his granddaughter as “of course very magnificent.”

**Fort Fairlawn** (Reverse)

In April 1780, after their victory at Moncks Corner, British and Loyalist troops occupied Fairlawn and built an earthwork fort 1/2 mi. E. On November 17, 1781, Patriot militia under Cols. Hezekiah Maham and Isaac Shelby, on orders from Gen. Francis Marion, attacked the outpost commanded by Capt. Neal McLean. They took about 150 prisoners. **8-69 Carnes Crossroads**

*Near intersection of 1st Avenue and N Main St., Goose Creek vicinity*

(Front) Carnes Crossroads was part of a 3,000 acre royal grant to Joseph Thorowgood in 1682. Later, the Etiwan, Native Americans who had lived on Daniel Island, moved here after European settlement pushed them from the Ashley-Cooper drainage basin. The Etiwan, part of the Cusabo group, had fewer members and were less powerful than the Westo and Cherokee to the west. They formed strategic alliances with British colonists and sided with the Carolina colony in the Yemassee War.

(Reverse) By the early 20th century Dallas Carn, for whom the intersection is named, had acquired substantial land surrounding the crossroads. Carn had a homestead, farm, and business interests that he operated near this spot. As automobile traffic grew by mid-century, Carnes Crossroads remained a hub for rural commerce. Smith’s Store, located just south of here, sold fuel and dry goods to locals and also operated as a dance hall that catered to military personnel stationed nearby. *Sponsored by the City of Goose Creek, 2014*

A one-room school for grades 1-6 with Aaron Cooper and St. Julian Manigault as its first teachers, it became a public school within the Berkeley County school district in the early 20th century.
(Reverse) By the 1920s attendance here had grown enough to require a one-room addition, which was built on land donated by Mary Ann Cooper. Daisy Pasley and Pansy Cooper were the first teachers in the expanded school. The school closed after the 1954-55 school year, when many rural schools in Berkeley County were consolidated. 8-71 Eighteen Mile House Tavern
NE of intersection of Wilmer Ave. and St. James Ave., Goose Creek
(Front) From the 18th century, the State Road from Charleston and the Road to Dorchester met near here. These paths connected Charleston to the S.C. interior. Travelers from Charleston would have crossed Goose Creek, two miles south, before reaching this point. By the early 18th century a tavern complex developed here providing travelers with room, board, pasturage, and other services, such as coopering and blacksmithing.
(Reverse) By the turn of the 19th century, Lewis Breaker owned the business. Later, Carston Vose, who also owned the Oaks Plantation, ran the tavern. In April 1865 African American troops of the 55th MA Infantry camped near here. They skirmished with Confederate cavalry and liberated slaves living on nearby plantations. She alone delivered over 800 babies and taught community women midwifery. Callen served poor patients throughout Berkeley Co.

The town of Maryville, chartered in 1886, included the site of the original English settlement in S.C. and the plantation owned by the Lords Proprietors 1670-99. When the old plantation was subdivided into lots and sold to local blacks in the 1880s, they established a town named for educator and community leader Mary Mathews Just (d. 1902). Though Maryville was widely seen as a model of black "self-government," the S.C. General Assembly revoked the town charter in 1936. Erected by the City of Charleston, 1999

10-34 Riversville/Battle of Secessionville
Eastern End of Fort Lamar Rd., James Island
Riversville (Front)
Riversville, an antebellum village of fourteen acres, with seven lots on Savannah (later Secessionville) Creek, was established here in 1851 by Constant H. Rivers (1829-1910), who
believed that the sandy soils and marsh breezes of James Island would protect inhabitants from the "malarious gases" common to the coast during the summer months.

**BATTLE OF SECESSIONVILLE (Reverse)**
The village, renamed Secessionville by early 1861, gave its name to the battle fought nearby on June 16, 1862, in which Confederates repulsed numerous Federal assaults on an earthenwork built across the peninsula and crushed Union hopes for an early occupation of Charleston. A water battery overlooking the marsh to the northeast was one of several earthworks built here in 1862 and 1863. *Erected by Chicora Foundation, Inc., 1999*

By the 1920s he was well known for his poems, nature articles, hunting tales, essays, and other writings.
(Reverse) Appointed poet laureate in 1934, Rutledge retired in 1937 to the family home at Hampton Plantation, where he graciously received many visitors (Hampton, 7 mi. (Front) This church, founded during Reconstruction, has been at this site since 1890. The first sanctuary serving this congregation was located on Hibben St. and built on a lot leased from the town of Mount Pleasant in 1877. After moving here and building a new church under the pastorate of Rev. F.E. Rivers in 1890, the congregation grew so quickly that it built its third sanctuary, a large frame church, by 1895.

Later renovations, including the application of a brick veneer in 1961 during the pastorate of Rev. J.A. Sabb, Jr., gave the church its present appearance. Friendship A.M.E. HAMPTON PLANTATION STATE PARK, 1950 RUTLEDGE RD., AT ITS INTERSECTION WITH U.S. HWY. 17, MCCLELLANVILLE
Hampton Plantation, 2 mi. NW, was established by 1730 and was one of the earliest rice plantations on the Santee River, in an area settled by Huguenots and often called "French Santee." The house, built in the 1730s for Elias Horry, later passed to his granddaughter Harriott Horry, who married Frederick Rutledge in 1797. The plantation remained in the Rutledge family until 1971.

One of Hampton's best-known owners was Archibald Rutledge (1882-1973), educator, man of letters, and first poet laureate of S.C. He wrote of life there in Home By The River (1941), calling it "the mother plantation of this old plantation country." Designated a National Historic Landmark in 1970, it has been Hampton Plantation State Park since the state acquired it in 1971.

10-4[3]′ William Rhett House

54 Hasell St., Charleston

This house, built ca. 1712, is believed to be one of the oldest houses in Charleston. It was built for William Rhett (1666-1723), a merchant, sea captain, militia officer, and speaker of the Commons House of Assembly famous for capturing the pirate Steed Bonnet. In 1807 Christopher Fitzsimons (d. 1825), a merchant and planter, bought the house, renovating and enlarging it and adding its piazzas.

The asymmetrical plan of the house includes a central hall with two large rooms on the western side and two slightly smaller rooms on the eastern side. With the relative decline of "Rhettsbury" in the early 20th century the house was a boarding house during the 1920s and 30s.

A 490-acre tract on Jeremy Creek was originally granted to John Whilden in 1705. Fort Pemberton, a large five-sided Confederate earthwork on the James Island side of the Stono River, was built in the spring of 1862 to defend Charleston from a Federal attack via Elliott’s Cut and Wappoo Creek. Named for Maj. Gen. John C. Pemberton, commander of the Dept. of S.C. and Ga., it was designed for as many as twenty-one guns but never held more than eight. Fort Pemberton was described in 1865 as “a large well-built work, heavily armed.” In June 1864 it was manned by Co. B, 15th Battalion S.C. Heavy Artillery, commanded by Capt. Guignard Richardson. Its armament at that time was two 32-pounder banded rifled guns and two 32-pounder smoothbore cannon. It and the rest of Charleston defenses were evacuated on February 17, 1865. _Erected by the South Carolina Battleground Preservation Trust, 2008_

(Front) This inland rice plantation was established in 1701 by a grant of 500 acres to Joseph Child. The original grant was between the headwaters of Goose Creek and the Ashley River, and Child soon acquired an additional 300 acres. His son Benjamin added acreage and continued planting rice. In 1749 Benjamin and Hannah Child’s daughter Mary inherited Windsor Hill and married rice planter John Ainslie (d. 1774).

William Moultrie (1730-1805), victor at the Battle of Sullivan’s Island in 1776 and governor 1785-1787 and 1792-94, was first buried here but reburied on Sullivan’s Island, at Fort Moultrie, in 1777. _Erected by the City of North Charleston, 2010_

KING ST., AT THE NORTHWEST CORNER OF MARION SQUARE NEAR HUTSON ST., CHARLESTON
(Front) The British capture of Charleston in May 1780 was one of the worst American defeats of the Revolution. On March 30-31 Gen. Henry Clinton’s British, Hessian, and Loyalist force crossed the Ashley River north of Charleston. On April 1 Clinton advanced against the American lines near this site, held by Gen. Benjamin Lincoln’s Continentals and militia. The 42-day siege would be the longest of the war.

10-75 Inland Rice Fields, ca. 1701-1865
Palmetto Commerce Parkway, Northwest of Ashley Phosphate Rd., North Charleston vicinity
Embankments and ditches dating from the early 18th century are still visible here and show the elaborate layout of rice fields that were part of Windsor Hill and Woodlands plantations. Before the American Revolution, lowcountry planters grew rice in inland fields that did not use the tides for flood waters. Windsor Hill was established ca. 1701 by Joseph Child (d. 1717), and Woodlands was established ca. 1800 by Thomas Parker (d. 1821). The remnants of these rice fields are a tangible reminder of the skill and labor of the enslaved people who constructed them, many of whom had been rice farmers in Africa. *Sponsored by Charleston County, 2012*

CHARLES TOWNE (Front)
The first permanent English settlement in what is now S.C. was established here in 1670. Named for King Charles II, the town was built on Albemarle Point, on the W bank of the Ashley River. It began in 1670-71 with a palisaded fort and a few houses. As it grew, additional lots were laid out across the Ashley River on Oyster Point. In 1680 the proprietors of the colony moved the capital to that site, in present-day downtown Charleston.

U.S. COURTHOUSE AND POST OFFICE (Front)
This Renaissance Revival building, opened in 1896, is notable for its association with U.S. District Judge J. Waties Waring (1880-1968). Waring, a Charleston native who served here 1942 to 1952, issued some of the most important civil rights rulings of the era. Briggs v. Elliott, the first suit to challenge public school segregation in the U.S., was heard here before three judges on May 28-29, 1951.

BRIGGS v. ELLIOTT (Reverse)
Thurgood Marshall and other NAACP Legal Defense Fund lawyers represented Harry and Eliza Briggs and 19 other courageous parents from Clarendon County. **10-88 Charleston Tea Plantation**  
**6617 Maybank Hwy., Wadmalaw Island**  
(Front) The first confirmed cultivation of tea in the U.S. occurred when French botanist André Michaux brought to plants to Middleton Barony on the Ashley River between 1799-1802. Large-scale production, however, was not attempted. Beginning in 1880 the U.S. Congress subsidized renewed cultivation efforts. The Pinehurst Plantation in Summerville was the most successful of these attempts.  
(Reverse) In 1963, cuttings from Pinehurst Plantation were transferred to 127 acres on Wadmalaw Island; land that is now the Charleston Tea Plantation. Because the Pinehurst plants had grown wild and cross-pollinated for decades prior to transfer they are now considered “South Carolina hybrids.” Charleston Tea Plantation remains the only site of large-scale commercial tea production in the U.S. *Sponsored by Fort Sullivan Chapter, National Society of the Daughters of the American Revolution, 2014*

**10-89 Blake-Grimké House**  
**321 East Bay St., Charleston**  
(Front) This Charleston double house was built before 1789 by William Blake, a planter and descendant of former Proprietary Governor Joseph Blake. By 1803 Mary Smith Grimké, descendant of Landgrave Thomas Smith, and Judge John F. Grimké, a planter and state Supreme Court justice, and their 11 children occupied the property. Among them were Sarah (1792-1873)
and Angelina (1805-1879) Grimké who became leading advocates for equal rights for African Americans and women.

(Reverse) From 1836-1838 the sisters, the first female agents of the abolitionist movement, traveled the Northeast as lecturers and organizers. In 1837 they helped organize the first national convention of white and black women. Also in 1837 Sarah published a full-fledged argument for women’s equal rights. The next year Angelina became the first American woman to address a legislative body, speaking to a committee of the Mass. legislature. Neither sister ever returned to Charleston. **Sponsored by College of Charleston Friends of the Library, 2015**

### 10-90 COASTAL PATROL BASE #8

**RIVERLAND DR. APPROXIMATELY ½ MILE WEST OF INTERSECTION WITH GRIMBALL ROAD, JAMES ISLAND**

(Front) The Civil Air Patrol (C.A.P.) was formed in 1941, just prior to U.S. entrance into WWII. C.A.P. air bases were located from Maine to Mexico and the James Island base was the 8th constructed. Its 3 runways were carved from a 108-acre cotton field and operations began in May 1942. This base remained in service until C.A.P. operations were moved to Charleston AFB after the war.

(Reverse) From May 1942 to August 1943 almost 100 volunteers at Base 8 flew daily patrol missions. Aircrews primarily hunted enemy submarines, protected shipping lanes, and performed search and rescue. South Carolina natives Drew L. King and Clarence L. Rawls died at sea when their plane crashed off Myrtle Beach on Feb. 9, 1943. **Sponsored by S.C. Wing – Civil Air Patrol, 2016**

### 10-91 SLAVE AUCTIONS

**SOUTHEAST CORNER OF EAST BAY ST. AND GILLOTT ST. INTERSECTION, CHARLESTON**

(Front) Charleston was one of the largest slave trading cities in the U.S. In the 1800s, the area around the Old Exchange Building was one of the most common sites of downtown slave auctions. Along with real estate and other personal property, thousands of enslaved people were sold here as early as the 1770s. Most auctions occurred just north of the Exchange, though some also took place inside. Merchants also sold slaves at nearby stores on Broad, Chalmers, State, and East Bay streets.

(Reverse) Enslaved Africans were usually sold at wharves along the city harbor. Some Africans were sold near the Exchange, but most people sold here were born in the U.S., making this a key site in the domestic slave trade. In 1856, the city banned auctions of slaves and other goods from the Exchange. Indoor sales grew elsewhere, and Ryan’s Mart, a complex of buildings between Queen and Chalmers streets, became the main downtown auction site. **Sponsored by the Old Exchange Building and Friends of the Old Exchange Building, 2016**

### 10-92 FIREPROOF BUILDING

**100 MEETING ST., CHARLESTON**
(Front) Constructed 1822-26, the County Records Building, known as the Fireproof Building, was designed by Charleston-born architect Robert Mills. Mills eliminated combustible materials from the design. Stone steps, flagstone flooring, and brownstone sills were used in place of wood. The brick vaulting on the interior carried the weight of the upper floors and eliminated the need for joists. The roof was clad in copper and all window sashes and frames were iron.

(Reverse) Massive brownstone columns with roughcast stucco adorn the matching porticos on the north and south elevations. These porticos place this building within the Greek Revival style and it was the first public building in the city designed in that form. Home to the S.C. Historical Society since 1943, the Fireproof Building was listed in the National Register of Historic Places in 1969 and was declared a National Historic Landmark in 1973. 10-93 BATTLE OF DILLS BLUFF
Harbor View Rd. at North Shore Dr., James Island

(Front) The Battle of Dills Bluff, the last engagement in S.C. during the American Revolution, took place on Nov. 14, 1782. Continental Army forces under command of Col. Thaddeus Kosciusko, and led by Capt. William Wilmot’s 2nd Maryland and Lt. John Markland’s 1st Pennsylvania Regiments, attacked a force of British infantry and cavalry on the south side of James Island Creek.

(Reverse) The British regulars were prepared for the attack, possibly through advance intelligence, and able to rush reinforcements to the field. The Continentals were outnumbered five to one and quickly overwhelmed. Markland was wounded; Wilmot and Lt. Moore of the Maryland line were killed. A slave named William Smith was wounded and taken prisoner. The British would evacuate Charleston in Dec. 1782. Sponsored by Town of James Island, 2016

10-94 CHARLESTON PUBLIC WATER SYSTEM
Marion Square, Charleston

(Front) In 1823, after learning of London’s success with artesian wells, City Council agreed that deep artesian wells would be feasible for the city and its growing population. Several pilot projects followed and in 1879 a 1,970-feet deep well was drilled near this site. With an impressive 700,000 gallons per day yield, it is reported to be the first successful artesian supply in the region.

(Reverse) The artesian supply was Charleston’s primary water source until 1903 when a franchise was granted to the Charleston Light and Water Co. to take over the city system and construct a new plant and reservoir by damming Goose Creek. In 1917, the city acquired the plant and properties, forming the Commissioners of Public Works, now Charleston Water System, to manage and operate the city water system. **10-96 Simeon Pinckney Homestead**

_Fort Johnson Road, James Island_

(Front) Simeon Pinckney, who was born a slave in Manning, S.C., enlisted in the 3rd S.C. Inf. (Colored) in 1863, and also served in the 21st U.S. Colored Infantry during the Civil War. Later, Pinckney settled on James Island with wife Isabella, stepson Daniel, and sons Alex and Samuel. In 1874 he purchased twenty acres of land for $350. Here he built a house and farmed the land on his own account.

(Reverse) Simeon Pinckney died in Nov. 1921 and is buried in the Fort Johnson area. Remarkably, Pinckney was not only able to purchase land during Reconstruction, but the family was also able to retain ownership of at least a portion of the tract for nearly 150 years. The Town of James Island purchased 7 acres of the Pinckney homestead for use as a public park in 2016. **Sponsored by Town of James Island, 2017**

**10-97 Septima Clark Birthplace**

_Wentworth St., Charleston_

(Front) Septima Poinsette Clark, who Martin Luther King Jr. called “the Mother of the Movement,” was a nationally influential Civil Rights activist. She was born at 105 Wentworth St. on May 3, 1898 to Peter Poinsette, a former slave, and Victoria Anderson, who was of Haitian descent. Clark earned her teacher’s certificate from Charleston’s Avery Normal Institute and her master’s from Hampton Institute. She taught for nearly 40 years.

(Reverse) In 1953, Clark visited the Highlander Folk School in TN, which was dedicated to training community organizers and pursuing equality for all. Here she developed the “citizenship school” model, which promoted literacy and political education. By 1965 Clark had helped to organize nearly 900 citizenship schools, including the first one on nearby Johns Island, and had helped to register more than 50,000 Black voters. **Sponsored by College of Charleston Teaching Fellows, 2018**

**10-98 John L. Dart Library**

_King St., Charleston_
Dart Hall, at Kracke and Bogard Sts., was founded in 1927 by Susan Dart Butler (1888-1959) as the first public library for African Americans in Charleston. She was the daughter of Rev. John L. Dart (1844-1947), who in 1894 established the Charleston Normal and Industrial Institute, later Burke H.S. The library began as a reading room in the printing office of the Institute, relying on Rev. Dart’s personal collection.

In 1931, with support of the Julius Rosenwald Fund, the collection and building expanded, and Dart Hall became a branch of the Charleston Free Library. The Dart family leased the building to the county for $1 a year until the county bought the building in 1952. Susan Dart Butler continued to serve as librarian until 1957. In 1968 a new library was completed here and the original Dart Hall Library was razed. **Sponsored by the Charleston County Public Library, 2017**

**10-99 First Memorial Day**

**Hampton Park, Charleston**

Hampton Park was once home to the Washington Race Course and Jockey Club. In 1864 this site became an outdoor prison for Union soldiers. Before Charleston fell in Feb. 1865, more than 250 prisoners died and were buried in mass graves. After Confederate evacuation, black ministers and northern missionaries led an effort to reinter bodies and build a fence around a newly established cemetery. Over the entrance workmen inscribed the words “Martyrs of the Racecourse.”

In 1865 a parade to honor the Union war dead took place here. The event marked the earliest celebration of what became known as “Memorial Day.” The crowd numbered in the thousands, with African American school children from newly formed Freedmen’s Schools leading the parade. They were followed by church leaders, Freedpeople, Unionists, and members of the 54th Mass., 34th, and 104th U.S. Colored Infantries. The dead were later reinterred in Beaufort. **Sponsored by the City of Charleston, 2017**

**10-100 Constitutional Convention of 1868**

**Meeting St., between Broad and Tradd St., Charleston**

In January 1868 delegates met to rewrite the S.C. Constitution. They convened at the Charleston Club House, which once stood near here. Before the Civil War the Club House was reserved for Charleston’s planter elite, but a majority of the delegates in 1868 were African American, some of them former slaves. The election of delegates to the convention was the first time that African American men voted in S.C.

The 1868 Constitution was a remarkable document for its time. The Declaration of Rights made no distinctions based on race. It created the basis for the state’s first public school system, as proposed by Robert Smalls, and guaranteed black male suffrage two years ahead of the 15th Amendment. In 1895, a new constitution would mandate segregated schools, outlaw interracial marriages, and disenfranchise black men. **Sponsored by the S.C. Civil War Sesquicentennial Advisory Board, 2018**

10-101 “PORGY HOUSE”
CENTER ST. AND WEST ASHLEY AVE., FOLLY BEACH
(Front) In the 1930s author DuBose Heyward and his wife, playwright Dorothy Heyward, owned a cottage 7 blocks W of this location. During the summer of 1934 American composer and pianist George Gershwin stayed at Folly Beach and collaborated with the Heyward on his folk opera *Porgy and Bess* (1935), which was based upon DuBose Heyward’s 1925 novel *Porgy*. The house where Gershwin stayed was destroyed by a hurricane, but the Heyward home remains and is known locally as the “Porgy House.”
(Reverse) Both Heyward’s novel and Gershwin’s opera were rare for their time as examples of white writers treating African American subjects as complex figures. During his stay in the Lowcountry Gershwin visited Black churches on James Island and incorporated some of what he saw and heard into his musical production. *Porgy and Bess* opened on Broadway in 1935 and ran for 124 performances. Today, the opera is perhaps best remembered for the song “Summertime.” *Sponsored by the Folly Beach Exchange Club and the City of Folly Beach, 2018*

(Front) The Town of Lincolnville was founded in 1867 by seven African American leaders: Daniel Adger, Marc Buffett, Rev. Richard H. Cain, Hector Grant, Rev. Lewis Ruffin Nichols, Rev. M.B. Salters, and Walter Steele. The town was located along the S.C.R.R. and was originally known as Pump Pond because the steam engines would stop here to refill their tanks. It was renamed Lincolnville in honor of Abraham Lincoln. The town was formally incorporated in 1889.
(Reverse) Lincolnville was established as an African American enclave. Rev. R.H. Cain purchased 500 acres, divided it into town lots, and sold to black settlers. By 1884 there were approximately 120 families living here and the town government was composed entirely of African American men. In addition to founding the town, Cain also served in the S.C. 10-104 CAROLINA ART ASSOCIATION/JAMES S. GIBBES MEMORIAL ART GALLERY

In 1857, a group of civic-minded Charlestonians established the Carolina Art Association. The goal of the CAA was to promote fine arts in S.C. The CAA was awarded its official state charter in 1858. The CAA is today the oldest surviving arts association in the Southeast. Upon his death in 1888, patron of the arts James S. Gibbes left a bequest that allowed the city and the CAA to build a museum of fine art.

**10-105 Pinckney Mansion**

**235 East Bay St., Charleston**
*(Front)* The Pinckney Mansion was a Colonial double house built c.1746 at this site, then a large waterfront lot known as Colleton Square. It is believed to have been designed by owner Charles Pinckney (c.1699-1758), a planter and Chief Justice of Provincial S.C. His wife Eliza Lucas (1722-1793) lived here after helping found colonial S.C.’s indigo industry. Enslaved people and free workers, skilled and unskilled, built the house. Colonial governors leased the property 1753-69.
*(Reverse)* Charles Cotesworth Pinckney (1746-1825), a framer of the U.S. Constitution, was among the mansion’s residents. The house was one of the first in the U.S. with a Classical temple front façade. Among the first Palladian villas in Charleston, it helped set a new trend of planters keeping their main dwelling in town instead of at the plantation. Also at the site was a graden and a long row of outbuildings, including slave quarters and stables. Pinckneys owned the house until it burned in 1861. *Sponsored by Eliza Lucas Pinckney Chapter NSDAR, 2019*

Christopher Memminger (1803-1888) lived in a home at this site as early as 1830. A German immigrant orphaned at age 4, Memminger was adopted by future S.C. Governor Thomas Bennett. Memminger served in the S.C. legislature and championed public education before and after the Civil War. He helped draft the Confederate Constitution and was the Confederacy’s Secretary of the Treasury 1861-1864. He returned to Charleston after the war and lived here until his death.

**10-107 FEDERAL BUILDING**

*334 MEETING ST., CHARLESTON*

(Front) Built 1964-65, this was originally a federal office building that housed more than 30 agencies of the U.S. government. Plans to locate a federal building here began as early as 1939, but World War II delayed the effort into the 1950s. It was the first major federal building project completed in postwar S.C. Designed by Charlestonian John Califf of Lyles, Bissett, Carlisle, and Woolfe, the seven-story Modernist building both praise and criticism upon its completion.

(Reverse) In 1972, Congress officially renamed the building for Lucius Mendel Rivers (1905-1970). A Berkeley County native and 29-year U.S. Congressman, Rivers secured valuable military projects for the Charleston area and helped ensure the building’s completion, later keeping an office here. Federal agencies and legislators occupied the building until 1999, after which it was threatened with demolition. *SW CORNER OF GRIMBALL RD. AND RIVERLAND DR., CHARLESTON VICINITY*

(Front) This site once belonged to Hunter’s Volunteers, an African American militia est. on James Island by 1877. Part of the S.C. National Guard, the unit kept an enlistment of 30-40 men tasked with helping preserve civil order. Most of them were farmers or laborers. The unit was disbanded in 1891 after trying to stop the arrest of a Black man in Charleston but was reinstated in 1892.

(Reverse) In 1899, Hunter’s Volunteers bought this site from Sarah Grimball and Henry Grimball. Over time, the unit became more of a mutual aid society and social club than a military outfit. In 1897, a year after being disarmed by the state, members chartered the Hunter Volunteer Charitable Society. (Front) Located 1.5 mi. SW of here, Mosquito Beach is a .13-mile strip of land that served African Americans during the Jim Crow era, when nearby Folly Beach was segregated. The beach began as a gathering spot for workers at a nearby oyster factory in the 1920s and 1930s. A store selling seafood and drinks first opened in the 1930s. Other businesses followed in the 1940s and 1950s.
Mosquito Beach lies along a tidal marsh historically known for the large mosquito population that gave the beach its name. NORTH CHARLESTON INTERMODAL TRANSPORTATION CENTER, 4656 GAYNOR ST., NORTH CHARLESTON

(Front) The Charleston Station was built in 1956 by the Atlantic Coast Line (ACL). ACL hoped the new station would attract customers, particularly tourists traveling on its Florida-bound trains. In 1967, ACL merged with Seaboard Air Line to become the Seaboard Coast Line, which later merged with CSX. In 1970, Congress passed an act to prevent the financial collapse of several U.S. railroads by creating Amtrak, a national railroad corporation.

(Reverse) Charleston Station was a two-story building designed in the International style and was emblematic of mid-century modern architecture. It was long and linear, with a low-sloped roof. LINCOLN THEATRE (Front)
In 1919, the Lincoln Theatre opened at 601 King St. and became Charleston’s longest operating theater for African Americans. It was run for most of its history by African American manager Damon Ireland Thomas (1875-1955). For a time it was the only theater in the city where black patrons sat without restrictions. The Lincoln hosted movies, vaudeville troupes, public speakers, and local acts. It closed c.1971 and was razed in 1989 after sustaining damage from Hurricane Hugo.

LITTLE JERUSALEM (Reverse)
In the first decades of the 1900s, Jewish-owned stores clustered along King St. in an immigrant neighborhood sometimes called “Little Jerusalem.” Businesses here included furniture and dry goods stores, shoe repair shops, Zalkin’s kosher meat market, and Mazo’s deli. One early arrival, Russian-born Samuel L. Banov (1870-1933), ran a successful clothing store at 595 King St. and invested in real estate nearby, including 601 King St., which he opened in 1919 as the Lincoln Theatre. (Front) Constructed in 1910 and designed architect Jules Henri de Sibour, this building served as barracks for members of the United States Marine Corps (USMC) stationed at the Charleston Navy Yard, later Naval Base Charleston. The barracks was the most prominent feature of a Marine footprint at the base that reached 58 acres by 1924 and shrank to 23 acres by 1964.
(Reverse) This two-story masonry building sits on a raised basement and exemplifies the Classical Revival style of many early 20th century structures on the base. Marines conducted drills on the open grassed yard to the building’s south, used as a parade ground after a larger yard to the east was developed prior to WWII. *N. side of Trumbull Ave., 250 FT. W of Avenue G intersection, North Charleston*
(Front) Constructed 1940-42, this multi-wing complex was the core of a hospital district established to serve the Charleston Navy Yard (1901). Navy personnel, shipyard workers, and their families first received on-site medical care in tents until a dispensary opened in 1908. U.S. entry into WWI prompted construction of the base’s first hospital, a series of one-story wooden structures where injured soldiers and others received treatment.
(Reverse) The larger, more modern 1942 hospital was built to serve the shipyard’s growing workforce. By 1945, the district spanned more than 30 acrea and included the hospital with treatment wards and administrative and subsistence buildings, housing for nurses and medical officers, and other facilities. This area of what was later named Naval Base Charleston is located on a portion of the Olmstead Brothers-designed Chicora Park and includes residences, garages, servant quarters, and recreation facilities built over the first half of the 20th c.
(Reverse) The prominent siting and grand architecture of many residences here reflected officers’ positions in the base’s military and social hierarchy. Common styles included Neoclassical and Revival (1900s-1930s), “Panama Houses” (1930s), and simpler frame homes (1940s). Built in 1905, the brick, two-story Italian Renaissance Revival building housed offices for the Commandant, his staff, and the Captain of the Yard.

**ST. DAVID’S EPISCOPAL CHURCH, CHURCH ST., CHERAW**  
(Front) Francis Asbury (1745-1816), pioneer bishop of American Methodism, came to Cheraw in 1785, on his first visit to S.C. Asbury had just been ordained a superintendent at the first General Conference in Baltimore on December 27, 1784. He was on his way to Charleston with Revs. Woolman Hickson, Jesse Lee, and Henry Willis. They crossed the Great Pee Dee River and arrived in Cheraw on February 17, 1785.  
(Reverse) Asbury’s party spent the night with a merchant here, a Methodist. Their host’s clerk told Rev. Jesse Lee (1758-1816) that his native New England needed circuit riders to preach the gospel there. He so impressed Lee with his earnestness that Lee established churches from Connecticut to Maine. Asbury and his party spent “some time” in prayer here at St. David’s Episcopal Church before continuing south.

Craig (1845-1935), once described as “one of Chesterfield’s busiest citizens.” Craig, a Confederate veteran, ran Craig’s Mill on Thompson Creek, owned a general store downtown, and founded the Chesterfield Light and Power Co. in 1910 to bring electric lights to Chesterfield. He died just as the park was being completed.
(Reverse) The land was cleared by the Civil Works Administration and the Federal Emergency Relief Administration built the “community hut,” a rustic log building finished in 1935. CRESCEANT DR., CHERFIELD

A new academy, built in 1889, later became Chesterfield School. By 1907 it had three teachers and so many students in grades 1-11 that a new school was necessary. The 1908 school, designed by E.V. Richards, was a two-story brick Classical Revival building.

13-16 ROBERT SMALLS SCHOOL
316 FRONT ST., CHERAW
(Front) Robert Smalls School was built in 1953 as a segregated school for African American students. Construction was funded as part of South Carolina’s school equalization program. While both white and black schools were funded by this program, the purpose was to equalize African American educational facilities and conform with the doctrine of “separate but equal” in order to avoid racial integration.
(Reverse) Designed by the firm of Hopkins, Baker & Gill of Florence, S.C., the school’s Colonial Revival aesthetic was heavily influenced by Cheraw, Incorporated, a group of local leaders who worked to ensure that new construction in the area was consistent with Cheraw’s historic character. The architecture of the building sets it apart from other equalization schools, which were usually built in a mid-century modern style. Sponsored by Pathfinders United, 2015

The two-story frame school with a bell tower, built in 1889-1890, was called “one of the most handsome and imposing” buildings in Manning. By 1899, however, the school was in debt and the building and property were endangered. The family of Moses Levi (1826-1899), farmer, merchant, and civic leader, bought it, cleared the debt, and donated it to the town.

(Reverse) The school, renamed the Moses Levi Memorial Institute, operated here 1899-1910. In 1910 a new two-story brick school was built here as Manning Graded School and the old school was moved to West Boyce St. to house the Manning Training School. The new school, designed by Edwards, Walter, & Parnham of Atlanta, was later Manning High School for many years. Manning High moved to a new building in 1982. The old school here burned in 1983. *Sponsored by the Wendell M. Levi Trust, 2012*

(Front) In 1911 W. C. Allen led a movement for a public library in Latta and was authorized by the town council to negotiate with Andrew Carnegie for funds. After the town complied with conditions set by Mr. Carnegie, he donated $5,000 and C. F. Bass of Latta gave land for the building, which opened as the Latta Library in 1914. Voters in a valid election levied a tax for maintenance. A rear portion and north wing were added later.

(Front) Newington Plantation was established on this site in the 1680s after Daniel Axtell received a royal grant of 300 acres. Axtell died shortly after arriving in the colony and his widow Rebecca built a house on the grant by the 1690s. **18-8 Old Town Hall**

**201 West Carolina Ave., Summerville**

(Front) The Old Town Hall, built ca. 1860, is the oldest public building in Summerville. Rev. Robert I. Limehouse (1815-1881), a Methodist minister and the town intendant, or mayor, purchased the site for the town hall that year. A jail and market place also once stood here. In
early 1865, in the final days of the Civil War, the village wardens left a meeting to defend
Summerville from a band of raiders and killed one of them.

(Reverse) At least sixteen intendants served Summerville in this building between ca. 1860 and
1892, when a new town hall was built on the Square. The Old Town Hall, described as the "heart

Though badly damaged by Hurricane Hugo in 1989, the building was purchased and restored by
the Summerville Preservation Society and is now the Society's headquarters and archives.

(Front) This town, in Colleton County before Dorchester was founded in 1897, dates to the early 19th century and the origins of railroading in S.C. By 1843, only ten years after the S.C. Canal & Rail Road Company completed its first 133 miles of track from Charleston to Hamburg, the station here was called Ross, sometimes known as Ross’s, Ross’s Station, or Ross’s Turnout. The post office established here in 1854 was called Elmville until Reconstruction.

This Neoclassical Revival house, called “one of the finest” in S.C. in 1920, was built in 1912 for Vernon Cosby Badham (1856-1947) and his second wife Lelia Johnston. Badham, a native of N.C., moved to S.C. in the 1880s and sold sawmill machinery in this area. In 1901 he built the Dorchester Lumber Company, across the highway and on the Southern Railway. The sawmill cut 50,000-100,000 feet of timber a day, hauling it from the swamps by a narrow-gauge railroad.

from 1831. It was one of the first stations on the S.C. Rail Road from Charleston to Hamburg. This area was called Ridgeville as early as 1820, for its location on a ridge between Four Holes Swamp and Cypress Swamp. From the 1840s to the Civil War Ridgeville was a popular destination for “pleasure parties,” day trips up from Charleston and back on the S.C. Rail Road. (Reverse) Town lots were laid out and sold here in 1849, and the town became a planters’ summer retreat and a center of trade. One antebellum visitor called Ridgeville “a very pleasant, healthy village” and its citizens “industrious, prosperous and hospitable.” It was incorporated in 1875, with its limits a half-mile radius from the depot. (Front) Harleyville is named for the Harley family who owned much of the land that comprises the present town. William “Cow Bill” Harley owned substantial property in this vicinity and raised cattle for the Charleston market. In 1885 he sold a right of way across his land to the Eutawville Railroad, which built a road between Peginn’s and Eutaw Springs with Harleyville a regular stop. The railroad spurred development of the lumber industry and the town was incorporated in 1893.  
(Reverse) As automobile travel became more popular in the 20th century, Harleyville again benefitted from its location along what was then one of S.C.’s main thoroughfares. S.C. Hwy. 2 (now Hwy. 178) was the first hard-surfac ed road in Dorchester County. When completed in 1932 it extended from upstate S.C. to Charleston. Considered “S.C.’s Main St.,” Hwy. 2 allowed Harleyville to remain a trading center for surrounding farms. I-26 replaced S.C. Hwy. 2 as a main highway in the 1960s.

**INTERSECTION OF US HWY. 78 AND US HWY. 15, ST. GEORGE**  
(Front) St. George developed as a stop on the S.C. Canal and Railroad known as “George’s Station.” It was named for James George (1789-1867), a plantation owner who gave land for the station when the railroad was built in the 1830s. He is believed to have operated a store in the area as early as 1810. The town was officially incorporated as George’s Station in 1875 and was re-incorporated St. George’s in 1889. In 1897, it was chosen as the seat of newly created Dorchester County.  
(Reverse) The new name recalled the old colonial parish of St. George’s, Dorchester, as well as the town’s founder, James George. The postal service first shortened the name to “St. George,” which came into common use by mid-century. By 1910, the town was a commercial hub with two banks, two hotels, several mills, and numerous stores. The construction of U.S. Hwy. 15 in the 1920s brought even more business and traffic, as it was along the most direct route from New York to Miami. *Sponsored by Dorchester County Historical Society and Town of St. George, 2019*

This sanctuary, originally a frame building, was built in 1875 on a tract purchased from the school.  
(Reverse) The sanctuary was extensively remodeled and covered in brick veneer in 1970. The cemetery nearby, established in 1876, includes the graves of such early church leaders as Anthony H. Howard (1840-1908), a former slave who served in the S.C. House of Representatives during Reconstruction. Howard was also one of several black farmers who grew rice here after the Civil War. *Erected by the Congregation, 2004*

(Florence Depot 1852) The original depot named Florence was built here in 1852, where the Wilmington & Manchester RR crossed present-day Hoffmeyer Rd. It was named for Florence Harllee (1848-1927), daughter of the railroad's president, William W. Harllee (1812-1897). In 1855 a new depot was built 2 mi. (Front) Hannah, named for the Hannah/Hanna family, was known as Cane Branch or Lynches River before a post office was opened here in 1887. William S. Hannah (1807-1876), a farmer and merchant, built his house nearby in 1847 and also ran a general store here; he later dropped the final "h" from the family name. This area was part of Marion County until Florence County was created in 1888.

(Reverse) The Hannah Post Office, open from 1887 to 1917, served a community of two churches, two general stores, a cotton gin, saw mill, grist mill, and cane mill. William S. Hanna's store, built ca. 1850, operated for more than 135 years, passing to his son Ervin (1840 - 1924), grandson Davis (1892 - 1978), and great-grandson Murdock (1920 - 1986). E. Palmetto St., just W of Kemp St., Florence

(Front) William Henry Johnson (1901-1970), one of the most important African-American artists of the 20th century, was born nearby on Cox Street. His family later lived on the corner of Cheves and Kemp Streets. In 1918, at the age of 17, Johnson moved to New York City. Johnson studied at the National Academy of Design and the Cape Cod School of Art, won several prizes, and studied art in Europe 1926-29.

(Reverse) Johnson, back in America in 1929-31, had paintings in several exhibitions and a one-day show at the Florence Y.M.C.A. Visits to Florence inspired paintings of local people and places. 21-22 Jamestown

Jamestown Community, S.C. Hwy. 24 near its intersection with Jamestown Rd., Mars Bluff Vicinity

(Front) This African American community, which flourished here for 70 years, has its origins in a 105-acre tract bought in 1870 by former slave Ervin James (1815-1872). James, determined to own his own farm instead of being dependent on sharecropping or tenant farming, bought the tract from Eli McKissick and Mary Poston. His five sons and a son-in-law later divided the tract into individual farms.
Between 1870 and 1940 Ervin James’s descendants and other area families purchased additional land, creating a rural community of about 250 residents. Among its institutions were the Jamestown Cemetery, dating from its earliest days; the Summerville Methodist Church (renamed Bowers Chapel), established about 1880; and the Summerville Elementary School, built in 1926.

**621 N. EBENEZER RD., FLORENCE**

(Reverse) The church, founded in 1806 in what was Darlington District until Florence County was founded in 1888, grew out of an early Methodist “Society.” Rev. Thomas Humphries (d. 1820), who served this and other area circuits, conducted the first service. In 1813 Dempsey Russell donated an acre to the congregation, which soon built a frame building here as its first permanent church.

(Reverse) The church, often called “Russell’s Meeting House” or “Russell’s Church” for Dempsey Russell, changed its name to Pisgah Methodist Church in 1840. It moved to a site a few miles west after the Civil War but soon returned to this site and built a larger frame church in 1878-79. 300 BLOCK OF N. DARGAN ST., FLORENCE
(Front) The 200 and 300 blocks of N. Dargan St. were once the center of a thriving African American business district in Florence. A number of black-owned businesses operated here, including restaurants, barber shops, funeral parlors and pharmacies. These businesses provided services to African American customers who were often denied access to white-owned businesses.
(Reverse) By the first decades of the 20th century North Florence had become the principal African American residential district as patterns of racial segregation became more fixed. The shops located on N. Dargan St., just north of the Atlantic Coast Line Railroad, served the predominantly African American residents who lived and worked here. 21-46 TIMMONSVILLE
100 BLOCK OF E. MAIN ST., TIMMONSVILLE
(Front) Timmonsville was founded in 1852 and named for Rev. J. Morgan Timmons. Initial growth was spurred by the Wilmington and Manchester R.R., which carried cotton and forest productions to the port of Wilmington. J.M. Timmons established a turpentine distillery by 1854 and a steam-powered saw mill produced 5,000 feet of plank in that same year. The Timmonsville Tobacco Warehouse Co. organized in 1895, placing Timmonsville at the center of the growing Pee Dee tobacco belt.
(Reverse) A fire in 1901 burned much of the downtown. Driven by profits from the tobacco industry, the town rebuilt and by 1910 population had doubled. The Atlantic Coast Line R.R., which absorbed the W.M.R.R. in 1898, built a brick depot on Railroad (now Main) St. The Seaboard Air Line R.R. was operating a second line through Timmonsville by 1914, testament to its place as the third largest tobacco market in the state. Leaf factories and warehouses all serviced the industry. **Sponsored by the Town of Timmonsville, 2017**

In 1884-85, he raised, cured, and sold a plot of tobacco on his Mars Bluff plantation, proving its potential to replace cotton as S.C.’s top cash crop. Rogers built a tobacco factory on Day St. and led efforts to open S.C.’s first tobacco auction warehouse, helping revitalize S.C.’s agricultural market economy.

S.C. Hwy. 51, 1 mi. from Georgetown side of Brown’s Ferry Bridge, Georgetown vicinity
Prince George Winyah Parish (1721) (Front)
Early settlement in this area near the Black River, based primarily on the Indian trade and the production of naval stores, prompted the creation of Prince George Winyah Parish in 1721. When the first Anglican church to serve the parish was built in 1726 Governor Francis Nicholson made a donation toward its construction. The Rev. Thomas Morritt became the first rector of Prince George Winyah in 1728.

Prince Frederick’s Parish (1734) (Reverse)
Within a few years successful rice production and the growth of Georgetown helped expand settlement inland and prompted the creation of a new parish. Prince Frederick's Parish included this area when it was established in 1734. A new parish church for Prince George Winyah was built in Georgetown by 1747 and the sanctuary here served Prince Frederick's Parish until a new parish church was built near the Pee Dee River in 1837. *Erected by the Georgetown Committee of the National Society of Colonial Dames of America in the State of South Carolina, 1996*

first separate Baptist congregation in Georgetown. Baptists had worshipped in the area as early as 1710, sharing the Black Mingo Meeting House with the Presbyterians and later sharing the Old Brick Church with other denominations during the period when the Church of England was the only officially-recognized church in South Carolina.  

(Reverse) Antipedo Baptist Church was located on Church St. by 1804. A later sanctuary, on Lot 130 on Highmarket St., was renamed First Baptist Church of Georgetown in 1911 and was occupied until 1915. In 1913 this lot was purchased for a new sanctuary, completed in 1915. \textit{732 Prince St., Georgetown}  
(Front) 732 Prince Street was the home of William Doyle Morgan (1853-1938), mayor 1891-1906 and the catalyst for much of Georgetown's growth and prosperity by the turn of the century. He helped give the city what one observer called "the snap and vim of twentieth century progress," such as a modern water and sewer system, electric lights, macadamized streets, sidewalks, a deepened harbor, and jetties in Winyah Bay.  

(Reverse) When Morgan retired in 1906 citizens presented him a sterling silver punch bowl in recognition of his "Zeal and Energy" and "Untiring Efforts for the Improvement of the City and Her Harbor." He founded and was president of the Bank of Georgetown 1891-1927. Morgan, a devout Catholic, was also instrumental in the construction of St. Mary's Catholic Church, built in 1899-1901 and consecrated in 1902.

The house was originally owned by members of the Trapier and Keith families, including John Keith (d. ca. 1823), first intendant, or mayor, of Georgetown in 1806. Old Easley Rd. (S.C. Hwy. 124) & Bramlett Rd., Greenville
The Willie Earle lynching was the last recorded in S.C. and the one of the last in the South. On the night of February 15, 1947, white cabdriver Thomas W. Brown was found mortally wounded beside his cab in Pickens County. Earle, a young black man, was thought to be Brown’s last passenger. Fountain Inn Cotton Mill, which stood here from 1898 to 2002, was first owned and operated by brothers A.J., C.E., R.L., and W.J. Graham. Built with 5,000 spindles, it expanded to 10,000 spindles and later to 17,000 spindles, making cotton yarns and cloth. In 1906 textile mill entrepreneur John T. Woodside bought the mill from the Grahams. A few years later it was described as “among the best mills in the South.”

(Front) This is the oldest black Baptist congregation in downtown Greenville. It was founded in 1867 by members of Greenville Baptist Church (now First Baptist Church), which had been a combined congregation of whites and blacks before the Civil War. Rev. Gabriel Poole, known as “Father Poole,” was its first pastor. The new church worshipped in First Baptist Church until it built its own church here in 1872.

(Reverse) The congregation purchased this site from the estate of Vardry McBee in 1871 and completed its first church, a frame building later covered in brick veneer, in 1872. That church was replaced by a brick Gothic Revival church in 1959. Springfield Baptist Church hosted many significant meetings during the Civil Rights Movement. It was built by John Adams for workers at the nearby McBee’s Factory, a complex owned by Vardry McBee (1775-1864), the industrialist often called “the father of Greenville.” Workers were required to attend services here, in a chapel McBee organized in 1841 for them and their families.

This Classical Revival building, constructed in 1940, was the Simpsonville Branch of the Greenville County Library until 1997. The first town library started ca. 1915 when Miss Nannie Cox, a literature teacher, placed books in the window of R.D. Jones’s furniture store on South Main Street. A more formal library was later on the second floor of the Simpsonville City Hall on East Curtis Street.

This building, the first separate library in the town, was built by the Work Projects Administration at a cost of $7,400, with significant local donations as well. It features two reading rooms, one often serving as a community center. The library was renovated and expanded in 1968. (Front) Fountain Inn High School was built in 1939 and was the town high school until 1957. It remained in use as Fountain Inn Elementary School until 1997. The City of Fountain Inn purchased the property in 1999 and at that time the original 800 seat auditorium became the Fountain Inn Center for the Performing Arts. The school was listed in the National Register of Historic Places in 2009 for its architectural significance.

23-62 FOUNTAIN INN CEMETERY
GULLIVER ST., IN FRONT OF FOUNTAIN INN MUNICIPAL CEMETERY, FOUNTAIN INN

(Front) Fountain Inn Cemetery was established c. 1890. Most of the land was deeded to the town by Lafayette Martin, and his son, D.R. Martin, sold an adjoining parcel in 1924 to expand the cemetery. An earlier graveyard had been located adjacent to First Baptist Church, but as the town expanded the decision was made to establish a new cemetery at this spot and transfer the previous burials to this location.

(Reverse) The various grave markers found here illustrate how burial practices evolved through time. The monuments and obelisks offer witness to Victorian sentimentality while the more uniform granite headstones that became popular by the mid-20th century show that the cemetery has remained in use over multiple generations. Through those years it has served as the final resting place for many Fountain Inn residents.

In 1922 it was rechartered as Union Bleachery and by that time had a capacity of 2 million yards per week, making it the largest finishing plant in the South.

The home, which originally fronted Augusta St., was designed in the Italianate style, but also incorporated Gothic and Moorish elements. An 1898 article declared it “the finest home of any man in northern South Carolina.”

Jones, who used it as both a residence and funeral home. At the time, it was believed to be the heaviest building ever moved in S.C. *Sponsored by the City of Greenville, 2017*

A ferry was operated on the Wateree Point, at a point about 4 mi. W, as early as 1775. In 1808 ferry rights were granted to Thomas Starke, Jr. and Austin Ford Peay (d. 1841), planters with
property in Fairfield and Kershaw Districts. Peay received ferry rights for another 7 years in 1825. Peay served in the S.C. House between 1812 and 1831 and in the S.C. Senate between 1832 and 1839.

The road from the Wateree River E to Liberty Hill was known as Peay’s Ferry Road by 1820. In 1865, elements of Gen. W.T. Sherman’s Federal army crossed the ferry on their way to Camden and Cheraw. (Front) The Price House dates to 1829-30 and was built shortly after the Camden fire of 1829 burned many of the homes and businesses on Broad St. The Greek Revival home is representative of other buildings that once stood nearby, with the lower floor devoted to commercial use and the upper floor to residential. Today it is a unique example of this form in Camden. For much of its history the lower floor served as a dry goods store, known locally as the “Old Brick Corner” by the 1870s.

(Reverse) In 1902 Susan S. Price purchased the building. She and her husband, Richard Price, ran a grocery out of the ground floor and lived above. INTERSECTION OF N. HAMPTON ST. (U.S. HWY. 521) AND E. HILTON ST. (U.S. HWY. 601), KERSHAW

(Front) Kershaw, originally Welsh’s Station, was founded in 1888 when Capt. James V. Welsh (1845-1906) persuaded the Charleston, Cincinnati, & Chicago Railroad to build a depot halfway between Camden and Lancaster, on what was then the county line between Kershaw and Lancaster Counties. The town was incorporated later that year and renamed in honor of Maj. Gen. Joseph B. Kershaw (1822-1894), prominent Confederate general and state senator from Camden.

(Reverse) Kershaw, with a population of 500 by 1890, grew even more dramatically after an 1897 fire which destroyed most of the downtown. WELSH’S STATION (Front)

Welsh’s Station, a depot on the Charleston, Cincinnati, & Chicago Railroad built in 1888, stood at or near this site. The town of Kershaw was first named for Capt. James V. Welsh, who donated 63 acres on which to establish a town and promised the railroad title to every other lot laid out in it. When it was incorporated in 1888 the town limits of Kershaw extended one-half mile in every direction from the depot.

**IN THE PARK AT THE CORNER OF S. MAIN AND ARCH STS., LANCASTER**

(Front) Lancaster, founded in 1798, was first called Lancaster Court House and later known as Lancasterville. The seat of Lancaster District from 1800 to 1868, it has been the seat of Lancaster County since then. The town and county were named for Lancaster, Pennsylvania, the home of the Scots-Irish families who moved to this part of the South Carolina backcountry by the 1750s. Lancaster was the only incorporated town in the county until after the Civil War.

(Reverse) The town grew rapidly as upcountry cotton production increased between 1800 and 1830, but grew more slowly for the next fifty years. Lancaster, revitalized by the arrival of the railroad in the 1880s and the rise of the textile industry in the 1890s, was described as “delightful and flourishing” in 1900. The Lancaster Downtown Historic District, a collection of significant public and commercial buildings, was listed in the National Register of Historic Places in 1984.

29-27 HAILE GOLD MINE

**HAILE GOLD MINE RD., KERSHAW VICINITY**

(Front) In 1827 Benjamin Haile (1768-1842) found gold here while panning in the streams on his plantation. After he found gold ore as well, Haile set up a mining operation. By 1837 the Haile Gold Mine included a 5-stamp mill, with steel stamps or pestles that crushed ore into dust from which gold was extracted. Haile leased small plots to entrepreneurs who used slave labor to mine gold.

(Reverse) The mine was not successful until the 1880s, when its owners hired Adolf Thies (1832-1917), a German mining engineer who perfected a new extraction process. A 60-stamp mill processed 100 tons a day, producing more gold than any mine east of the Mississippi. After a deadly boiler explosion in 1908, the mine closed in 1912. It operated briefly during World Wars I and II and the 1990s.

**SUMTER’S CAMP AT CLEMS BRANCH** (Reverse)

In June 1780 Col. Thomas Sumter’s troops were among the few organized Patriot units in S.C. The camp at Clems Branch gave him a strategic location, water, and forage while reinforcements joined him in late June and early July. 29-29 Lancaster & Chester Railway
512 S. Main St., Lancaster

(Front) The Lancaster & Chester Railway, founded in 1896, was originally the Cheraw & Chester Railroad, chartered in 1873. The C&C, which never finished its route, was sold to Col. Leroy Springs (1861-1931) for $25,000 and renamed the Lancaster & Chester Railway. A narrow gauge line, running only 29 miles from Chester to Lancaster, it was later converted to standard gauge track in 1902 at a cost of $125,000.

(Reverse) The L&C carried freight and passengers 1896-1913 but only freight after a 1913 accident. Springs’s son Elliott White Springs (1896-1959) succeeded him as President. He named 29 Vice Presidents, one for each mile of the road. This depot, built in 1951 and designed by Joe Croxton, included the L&C offices. From 1902 to 1994 Springs Mills was the L&C’s largest customer, hauling coal and cotton to its plants. *Erected by the Lancaster County Historical Commission, 2008*

PageLand Hwy (S.C. Hwy 9) and Old Dixie School Rd (State Rd S-29-70), Lancaster

(Front) The Lancaster Commissioners of the Poor were established in 1791 to provide support for the orphaned, aged, and indigent. In 1867 Dr. J. Marion Sims donated $1,000 in gold to the Commission. They used the funds to improve and expand the county poor house, renaming it the Sims Home. A new, 16-room home was completed in 1914 and replaced the old complex, which had consisted of a number of smaller buildings.

(Reverse) The Lancaster County Home continued to serve the local population, including both white and black, until the 1940s. Today, however, all that remains of the old county home is the cemetery. It was founded by Dr. Julian Edward Grant (1900-1997), who practiced medicine in Newberry County for more than fifty years. Grant, a native of Marlboro County, was educated at
Claflin University and Meharry Medical College in Nashville, Tenn., before moving to Newberry in 1930.

(Reverse) Grant, recognizing the need for a hospital for blacks in Newberry, organized a board of trustees from the community. By 1935 the board acquired this site, with a two-story, seven-room frame house on a two-acre lot, for $1,500. The house, renovated and fitted with medical equipment, opened as Peoples Hospital in 1937. The building, later the Vincent Street Community Center after the hospital closed in 1952, was demolished in 1970 to build Vincent Street Park. Sponsored by the City of Newberry, 2014

36-27 Frederick Nance House-Oak Grove
921 Jessica Ave., Newberry

(Front) The Frederick Nance House-Oak Grove, is an early nineteenth-century Classical Revival home, distinct from other early architecture in Newberry for its scale and masonry construction. The home was built on land owned by Frederick Nance (1770-1840), a businessman, planter, and well-respected public official. Appointed Newberry’s Clerk of Court in 1794, Nance also served as S.C. Lt. Governor 1808-10 and State Senator 1812-19.

(Reverse) Although the house now sits on just under two acres, it was once the center of a substantial plantation that was carved from a 785-acre land grant secured by Nance in 1813. The design of the home has been attributed to Robert Mills, who was born in Charleston in 1781 and was preeminent among the first generation of native-born American architects. The property was listed in the National Register of Historic Places in 2014. Sponsored by the Newberry County Historical and Museum Society, 2014

(Front) Newberry College, founded in 1856, moved here from Newberry in 1868 and remained in Walhalla until 1877, returning to Newberry for the opening of the 1877-78 academic year. The Lutheran college struggled during the Civil War and its aftermath as enrollment dropped and debts mounted. In 1869 it sold its main building and other property in Newberry at auction to pay its significant debts.
(Reverse) Walhalla, with a large community of Germans who were primarily Lutherans, was chosen as a suitable home for the college, which retained the name Newberry. Under Josiah P. Smeltzer (1818-1887), president 1861-77, the college first occupied a building at Main and College Streets and then one at College and North Broad Streets. (Front) The unfinished railroad tunnel cut into the SE face of Stumphouse Mtn. is the largest of three begun before the Civil War by the Blue Ridge Rail Road, for a line from Anderson, S.C., to Knoxville, Tenn. Work began in late 1853. About 1,500 Irish miners, who lived in the Tunnel Hill village atop the mountain, cut through blue granite with hand drills, hammers and chisels, and black powder. Four shafts meant miners could cut through ten rock faces at one time.

It was a four-teacher school for African American students built according to Rosenwald floor plan no. 400. Felton was a practice school constructed to support Normal School instruction at S.C. State A&M (now S.C. State U.). A Rosenwald supported teacherage was built in 1927 to complete the teacher training center.
(Reverse) Felton Training School was named for J.B. Felton, S.C. Supervisor of African American Schools 1919-1948 and advocate for Rosenwald School construction. The school drew students from Orangeburg public schools. For those families who could afford the small attendance fees, the selective program offered here was viewed as the best option for educating their children. In 1964 the original school was replaced by a new facility. Sponsorship by Orangeburg Chapter of The Links, Incorporated, 2015

Russell St. (S.C. Rte. 33), midway between Broughton (U.S. Rte. 178 Bus.) and Middletown (Sec. Rte. 211) Sts., Orangeburg
Jewish Merchants (Front) Russell St., historic hub of Orangeburg’s commercial life, was home to Jewish merchants for over 160 years. German Jews began settling in Orangeburg in the 1830s, followed in the next century by Eastern European Jews. Deopold Louis was likely the first Jewish merchant in town. Theodore Kohn, known as father of Orangeburg’s graded schools, co-founded Ezekial & Kohn in 1868. By the mid-1900s as many as 15 stores downtown were Jewish owned. In 1996 Barshay & Marcus was the last to close.
Jewish Life (Reverse) Temple Sinai, built in 1955 on Ellis Ave., became the center of religious life for Jews who lived in Orangeburg and surrounding towns. As in many small towns in S.C., in the second half of the 20th century descendants of Jewish merchants moved to larger cities in the state and beyond. Noted past residents of Jewish descent include Robert F. Furchgott, a Nobel Prize-winning biochemist, and Evelyn Marcus, the first woman from Orangeburg County admitted to the S.C. Bar. Clemson University was founded in 1889 as the Clemson Agricultural College of S.C., with its origins in the Morrill Land Grant Act of 1862 creating public land-grant colleges. It was established by a bequest from Thomas Green Clemson (1807-1888), noted scientist, agriculturist, and son-in-law of John C. Calhoun, whose plantation at Fort Hill formed the core of the new college campus.

Clemson, intended to be “a high seminary of learning” to advance scientific agriculture and the mechanical arts, opened in 1893 as a military school and was sometimes improperly known as Clemson A&M College. It became a civilian co-educational institution in 1955, then became Clemson University, reflecting its modern and expanded mission, in 1964.

NEAR INTERSECTION OF SALUDA DAM RD (S.C. HWY. 36) AND OLD SALUDA DAM RD., EASLEY VICINITY

This mill was built about 1880 by Colonel Robert E. Bowen (1830-1909), Confederate officer, state representative, state senator, and Pickens County businessman. Bowen, a prominent advocate for progressive farming, was also active in the railroad and timber industries. In addition to this mill, the complex here included a store, blacksmith’s shop, saw mill, and cotton gin.

The mill passed through several owners in the first quarter of the twentieth century, from Bowen’s son James O. Bowen to Albert B. Kay and Kay’s widow Tallulah, and then successively to R.T. Waddell, Ida S. Johnson, and a Mrs. Shembosky, who sold it to Hovey A. Lark (1890-1968) during the Depression. Lark ground corn here from the early 1930s until about 1965.

Hanover House, built 1714-16 in what is now Berkeley County and moved to the Clemson College campus in 1941, is a fine example of Dutch Colonial architecture. It was built for French Huguenot planter Paul de St. Julien (d. 1741). St. Julien’s grandfather Pierre Julien de St. Julien had been granted 3,000 acres on the Cooper River in 1688 by the Lords Proprietors. When the Public Works Administration (PWA) built the Santee-Cooper Dam, Lake Marion, and Lake Moultrie in 1938-1942 Hanover Plantation was in the area inundated by Lake Moultrie. The house was disassembled, moved to Clemson, and reassembled in 1941, then restored 1954-62. Listed in the National Register of Historic Places in 1970, the house was moved to the S.C. The eventual Patriot victory was also notable for the death of Francis Salvador, the first Jewish Patriot killed during the Revolution.

(Front) Fort Prince George, covered by Lake Keowee since 1968, was built nearby in 1753, near the unofficial boundary between Cherokee lands and white settlements. Across the Keowee River from the Cherokee Lower Town of Keowee, it was built to protect whites and Cherokees from the Creeks or other enemies and had been promised to the Cherokee “headmen” by Gov. James Glen since 1748.

Fort Hill Slave and Convict Cemetery (Front)
African Americans enslaved at Fort Hill were buried along the hillside below the Calhoun family plot in graves marked only by field stones. The exact number of burials is unknown. Beginning in 1890, Clemson College leased prisoners, primarily African Americans, from the state to construct campus buildings. Until 1915, those who died during their incarceration were buried adjacent to the slave cemetery.

Clemson University’s Woodland Cemetery began as statesman John C. Calhoun’s Fort Hill Plantation graveyard. Early maps show the hillside had been an orchard. The first known burial was a child, also named John C. Calhoun, who died in 1837. Clemson College laid out the present cemetery in 1924 as a graveyard for faculty and staff. Many prominent Clemson University leaders are buried here. **Sponsored by Clemson University, 2016**

Fort Hill Slave Quarters (Front)

Located one-eighth mile from the main house, the Fort Hill slave quarters were described in 1849 as being “built of stone and joined together like barracks, with gardens attached.” Some 70-80 enslaved African Americans then lived at Fort Hill. In 1854, Andrew P. Calhoun moved to Fort Hill from Alabama with his property, including slaves. At his death in 1865, the estate included 139 enslaved African Americans.

In 1890, convicted laborers, mostly African Americans with sentences ranging from two months to life, were jailed in a prison stockade nearby. They cleared land, and made and laid bricks. Native Americans inhabited this site prior to the American Revolution. The Cherokee presence ended when Maj. Andrew Williamson ordered the town and food stores burned during the Cherokee War of 1776.

Fort Hill Plantation of John C. Calhoun (Reverse)

Fort Hill Plantation covered some 1,100 acres. Enslaved African Americans cleared fields, terraced hillsides, and herded livestock. They also planted and harvested crops. The enslaved labor force included blacksmiths, carpenters, millers, and gardeners, along with domestics and field hands. The gristmill stream called Sawney’s Branch for enslaved laborer Sawney Calhoun was the Mill Creek, later renamed Hunnicutt Creek. **Sponsored by Clemson University, 2016**

In 1715 there were at least 60 Cherokee villages, totaling roughly 11,000 people, that were connected to the coast via this travel and trade corridor. The trade in deer hides was particularly important to the early Carolina economy.  
(Reverse) The Cherokee Path once passed through Six Mile, roughly approximating the current route of Main St. The town of Six Mile derived its name from its location along the Path, which was six miles east of the Cherokee town of Keowee and later the trading post at Fort Prince George, both of which are now submerged under the waters of Lake Keowee. During the Anglo-Cherokee Wars (1759-61, 1776-77) the Path was used as a supply line by British and colonial forces. *Sponsored by the Town of Six Mile, 2018*

**39-24 Eastatoee Valley**  
*Intersection of Shooting Tree Ridge Rd. and Cleo Chapman Hwy., Sunset*  
(Front) Human settlement in this valley dates to the Clovis people, present as early as 13,000 years ago. By the early 1700s, the valley was part of a cluster of Cherokee Lower Towns. Near
here was the town of Eastatoee, which had more than 200 houses c.1760. Valley residents included Cherokee leader Seroweh and European trader James Beamer, who interpreted and mediated with the Cherokee. (Reverse) Conflicts with Europeans and other tribes weakened Eastatoee, which was destroyed in 1760 and rebuilt. The Cherokee abandoned the town in 1776, when it was burned by Patriot forces. Sustained white settlement in the valley began in 1784, when the state first issued land grants in former Cherokee territory. Descendants of some of those 18th c. settlers still live in the valley. *Sponsored by Pickens County Historical Society, 2019*

Paul Rinaldo Redfern (1902-1927?) had shown an early interest in and aptitude for aviation, building his first full-scale airplane in 1916, while still a student at Columbia High School. Though he soon left high school to gain experience working on and flying planes, Redfern returned in 1919 and graduated in 1923.

(Front) The S.C. State Fair was founded in 1856 by the State Agricultural Society. The fair was held at the fairgrounds on Elmwood Ave. near downtown Columbia 1856-1861, then suspended by the Civil War. The State Agricultural & Mechanical Society revived the fair in 1869; it stayed on Elmwood Ave. until 1903, when the society acquired 100 acres here for its “thoroughly modern” fairgrounds. The first State Fair held at this location opened in October 1904.
(Reverse) The S.C. State Fair, with exhibits and competitions, attractions and rides, and musical and other acts, has been held here every fall since 1904 except during World War I in 1918. Other events are held year-round. A highlight from 1904 to 1959 was “Big Thursday,” the football game between the University of S.C. and Clemson University. The “rocket” near the North Gate, a U.S. Air Force missile given to the City of Columbia, has been an icon here since 1969. Sponsored by the South Carolina State Fair, 2013

40-180 VICTORY SAVINGS BANK
919 WASHINGTON ST., COLUMBIA
(Front) Victory Savings Bank, founded in 1921, was the first, and for many years the only, black-owned bank in S.C. It was chartered by I.S. Joseph as president and I.S. Leevy and C.E. Stephenson as vice presidents, and opened at 1107 Washington St. in the heart of Columbia’s black business district. It was in this building 1955-1985, then moved to Sumter St., where it became S.C. Community Bank in 1999.
(Reverse) Dr. Henry D. Monteith, who became president in 1948, led the bank for many years. His sister Modjeska Monteith Simkins, notable civil rights leader, held several positions here. Board of Education case (1954). Sponsored by the City of Columbia, 2014
40-181 Hopkins Family Cemetery
Just off Back Swamp Rd., Hopkins vicinity

(Front) This cemetery was established about 1775 when John Hopkins (1739-1775) was buried here, in what was the garden of his Back Swamp Plantation. Hopkins, a native of Va., arrived in S.C. in 1762. He received a grant of 250 acres here in 1764, built his house on this site, and increased his holdings to 2,950 acres. He was a delegate to the First Provincial Congress in 1775 but died that fall.

(Reverse) Other prominent members of the family buried here include Hopkins’s son John (1765-1832), lt. governor of S.C. 1806-08, and grandson William (1805-1863), delegate to the Secession Convention. The cemetery is also notable for its ca. 1836-37 stile, or stone steps over a wall, a feature which is quite rare in S.C. It was listed in the National Register of Historic Places in 2010. (Front) This church, founded in 1963, was originally about 3 mi. NW on Bluff Road. It was organized by Elizabeth Simmons (1900-1965), known as “Mother Simmons,” Andrew C. Jackson (1927-2006), and eleven other adults and their children. The first church, a modest building, was called “the Little Red Church.” Jackson, its first pastor and later a bishop, served this church from 1963 until he retired in 1996.

(Reverse) After the first church burned in 1966, services were held in Atlas Road Elementary School across the street until a new church was built here. That church, chartered as Bible Way Church of Arthurtown but later renamed Bible Way Church of Atlas Road, was dedicated in 1967. Over the next forty years it grew from a few faithful members to more than 10,000, building new sanctuaries here in 1981 and 2001. Sponsored by the Congregation, 2013

40-183 A.S. Salley House
901 Laurens St., Columbia

(Front) Alexander Samuel Salley (1871-1961), the historian described as “a walking encyclopedia” of S.C. history, lived here from 1910 until his death. Salley, born in Orangeburg County, was secretary of the S.C. Historical Society in Charleston 1899-1905 and founding editor of the S.C. Historical & Genealogical Magazine. He was secretary of the Historical Commission of S.C. 1905-1949, preserving and publishing many state historical records.

(Reverse) Salley directed the Historical Commission (now the S.C. Department of Archives and History) until his reluctant retirement in 1949. In 1910 he built this Classical Revival house, designed by Wilson, Sompayrac, & Urquhart. Salley later converted a small house he had built nearby in 1908 (now at 1917 College Street) as his office and library. Connected to this house by a breezeway, it housed his extensive collection of S.C. history. Sponsored by the Orangeburg County Historical Society, 2014

40-184 HARRIETT CORNWELL TOURIST HOME
1713 WAYNE ST., COLUMBIA
(Front) This home’s first owner was John R. Cornwell, an African American business man and civic leader who owned a successful barber shop on Main St. After his death, Cornwell’s wife Hattie and daughters Geneva Scott and Harriett Cornwell lived here. From the 1940s until after the Civil Rights Act of 1964 they ran the house as a “tourist home” for black travelers. Harriett also taught at Waverly Elementary School.
(Reverse) During the Jim Crow era, segregation gave African American travelers very few choices for restaurants or lodging. Many chose to stay in a network of private houses located across the South and nation. These tourist homes often relied on word-of-mouth, but many were also listed in guides such as The Negro Travelers’ Green Book. This house was listed in the National Register of Historic Places in 2007. **Sponsored by the Richland County Conservation Commission, 2014**

U.S. HWY. 601, NEAR CROSSING OF BATES OLD RIVER, LOWER RICHLAND
(Front) Joseph Joyner owned a private ferry on the Congaree River near this site by 1749. John McCord’s private ferry succeeded Joyner’s by 1757, becoming public in 1766 by statute. A route from Charleston to Camden crossed the river at McCord’s Ferry. Due to its strategic location, the ferry figured in actions on the south side of the river during the Revolutionary War.
(Reverse) As the river cut a new channel, isolating the oxbow lake now called Bates Old River, a second ferry was chartered in 1845. This ferry was operated by the Bates family from the Civil War until bridges replaced both crossings in the 1920s. U.S. Hwy. 601 crosses the old river west of the McCord’s Ferry site and the Congaree River two miles downriver from the former Bates Ferry site. **Sponsored by Richland County Conservation Commission, 2014**

40-186 ZION BAPTIST CHURCH
801 WASHINGTON ST., COLUMBIA
(Front) Zion Baptist Church first organized in 1865 and met in a humble dwelling on Gadsden St. The congregation moved to this site in 1871. The current sanctuary, the second on this spot, was built in 1916. Zion Baptist has long served as a center for community organization. Both the Women’s Baptist Educational and Missionary Convention of S.C. (1888) and the Women’s Auxiliary to the Gethsemane Baptist Association (1919) were founded here, as were other important missions.
(Reverse) In 1930 Dr. Matilda Evans, the first African American woman to have a practice in the state, started a free clinic in the basement of the church. It served 700 patients on its first day. On March 2, 1961 over 200 African American students met at Zion Baptist before beginning their march to the State House to protest racial segregation. The U.S. Supreme Court later overturned
the convictions of those students arrested during the march in the case Edwards v. S.C. (1963). Sponsored by Zion Baptist Church, 2014

40-187 S.C. CONFEDERATE SOLDIERS’ HOME
CONFEDERATE AVE., NEAR INTERSECTION WITH BULL ST., COLUMBIA
(Front) The Confederate Infirmary opened here in 1909. S.C. was the last southern state to create a residence for indigent Civil War veterans. Legislation authorized space for two veterans from each county. The United Daughters of the Confederacy played a key role at the facility, which was renamed the Soldiers’ Home in 1915. The UDC prompted investigations that led to renovation of the Greek Revival building and nearby hospital in 1921.
(Reverse) Women’s influence at the Soldiers’ Home continued and in 1921 the state authorized the UDC to name four women to the Home’s nine-person commission. In 1925 the state opened the Home to veterans’ widows, and later extended eligibility to sisters, daughters, and nieces. The last veteran living in the Home died in 1944 and it closed in 1957. 40-188 BURNING OF COLUMBIA
1200 BLOCK OF MAIN ST., COLUMBIA
(Front) Due to Columbia’s strategic value, capture of the city was an objective of the Union Army during the Carolinas Campaign of 1865. By Feb. 15 Union forces had moved to within 4 miles of the city and met opposition from Confederate skirmishers and artillery batteries. After offering a cursory defense of the city, C.S.A. commanders P.G.T. Beauregard and Wade Hampton ordered a final evacuation of Columbia on the morning of Feb. 17, 1865 and by the afternoon Union forces occupied the town.
(Reverse) By 1865 Columbia had become a central store of cotton in the Confederacy and as Union forces entered the city cotton bales lined much of Richardson (now Main) St. Several cotton fires were reported on the night of Feb. 16-17 and others were burning on the afternoon of Feb. 17. On the night of Feb. 17-18—aided by high winds, burning cotton, and Union soldiers—destroyed much of Columbia’s main commercial district and more than 450 buildings in all, a large portion of the city. 40-189 DUPre BUILDING
807 GERVais ST., COLUMBIA
(Front) The DuPre Building was built in 1919 and was designed by prominent S.C. architect James B. Urquhart. It served as showroom for DuPre Auto Co., a local distributor of Ford cars and Fordson tractors. The first commercially successful small tractor, the Fordson was produced by Ford Motor Co. from 1917-1928. During the first year of sales, DuPre Auto Co. placed over 700 Fordson tractors on S.C. farms, an important advance in pre-harvest mechanization in the state.
(Reverse) By 1933 DuPre Auto Co. no longer operated from this location. The property housed engravers, equipment suppliers and manufacturers during the Depression. From 1943-1945, the Associated Press service bureau and Columbia Record newspaper occupied the building. 40-190 FIRST CALVARY BAPTIST CHURCH
CORNER OF PINE ST. AND WASHINGTON ST., COLUMBIA
(Front) First Calvary Baptist Church descended from African American congregants who left First Baptist Church following the Civil War. These founding members, like many African Americans at the time, sought greater autonomy by breaking from white-controlled churches. The congregation of First Calvary first organized under a brush arbor and later met in the home of Celia Mann, now the Mann-Simons Cottage.
(Reverse) The congregation built a permanent home, a frame structure, on Richland St. c. 1870. They remained at that location until building a new stone sanctuary at Pine and Washington Sts., which was completed in 1950. 40-191 BETH SHALOM CEMETERY
1300 BLOCK OF WHALEY ST., COLUMBIA
(Front) In 1883 members of Columbia’s Jewish community founded the Hebrew Cemetery Society of Columbia as an alternative to the Hebrew Benevolent Society’s cemetery, which had been established in 1822. The organization purchased a 4-acre tract bounded by Indigo (Whaley), Lower (Heyward), Marion, and Sumter streets as a free cemetery for Hebrew burials. In 1896 the Society sold 3 acres to W.B. Smith Whaley for textile mill development.
(Reverse) By 1911 the Society deeded cemetery oversight to the Beth Shalom (House of Peace) synagogue. Early burials included Orthodox Jews from Columbia and elsewhere. This site later became identified as a place specifically for synagogue members. As the Univ. of S.C. expanded in the 1960s it grew around the cemetery. Jewish migration into Forest Acres and fewer available plots here led to the creation of Arcadia Lakes Cemetery in 1995. **40-193 BETH SHALOM SYNAGOGUE**

1719 Marion St., Columbia

(Front) In 1905 disagreements over religious practices divided members of Columbia’s Tree of Life Synagogue. Jews embracing Orthodoxy formed a new synagogue, which they named Beth Shalom (House of Peace). Meetings were held in a private home on the corner of Park and Lady Sts. until a sanctuary was completed in 1907. Destroyed by fire in 1915, it was rebuilt eight months later. Growth of the congregation led to a new temple in 1928.

(Reverse) Designed by noted Columbia firm Lafaye & Lafaye and built by M.B. Kahn, a member of the congregation, the new House of Peace was dedicated Sept. 8, 1935. In 1955, its members shifted from Orthodoxy to embrace the Conservative movement. For more than three decades the Marion St. landmark met the spiritual, cultural, and social needs of its members. The church building expanded in the 1950s, 1960s and 1990s, evidence of the growth of the congregation. In the 1950s, led by Rev. Dr. Fred V. Poag, the church actively supported racial desegregation. This three-story building was designed by the noted Columbia architectural firm of W.B. Smith Whaley and Co. Completed in 1895 and featuring a granite façade and red barrel tile roof, the building is a rare example of Romanesque-style architecture in Columbia. On March 15, 1960 five African American students from Benedict College – Charles Barr, David Carter, Richard Counts, Milton Greene, and Johnny Clark – were arrested after refusing to leave the lunch counter at the Taylor Street Pharmacy, which once occupied this building. 40-197 VETERANS HOSPITAL
DORN DR., WILLIAM JENNINGS BRYAN DORN VA HOSPITAL, COLUMBIA
(Front) The Columbia Veterans Hospital opened to patients in 1932 and was among a set of VA Hospitals built throughout the nation. The campus is similar in design to other VA Hospitals of the period. Originally built with large day-rooms and open wards, the design was modified to include smaller patient rooms and private spaces as health care philosophy evolved. The siting of the hospital just outside the city helped to generate growth in the surrounding area.
(Reverse) The VA attempted to reflect local history and local architecture in the design of its facilities. While the Colonial Revival style was similar to other VA hospitals, the Recreational Building (Bldg 5), with its raised basement, sweeping stairs, and monumental portico, may have taken inspiration from the Mills Building on the campus of the S.C. State Hospital. The facilities here were segregated by race until 1954, when the VA officially ended the practice. Sponsored by the Department of Veterans Affairs, 2017

State Teachers Association, and known from 1918-1953 as the Palmetto State Teachers Association, the Palmetto Education Association (PEA) was a statewide professional association for African American teachers and public school employees. In 1947 the PEA purchased a house at this site to serve as their first permanent headquarters. The building was razed in 1957 and a new headquarters was built here.

The 15th N.Y. Infantry, a volunteer National Guard unit of African American soldiers, arrived here Oct. 10, 1917, to train at Camp Wadsworth. Race riots that summer in East St. Louis and Houston raised the fears of Spartanburg’s whites about the potential for racial violence if Northern black soldiers trained here. Though the 15th N.Y. was ordered not to respond to any insults or physical abuse by local whites, tensions rose for the next two weeks.

The War Dept., fearing that minor incidents would soon escalate, ordered the unit back to N.Y. on Oct. 24 and on to France. As the 369th U.S. Infantry, it joined the 4th French Army and its band won acclaim all over France for its concerts. It was the first American unit in combat, and was soon nicknamed “the Harlem Hell Fighters.” It was at the front for 191 days, longest of any American unit in World War I. *Erected by ReGenesis and the Spartanburg County Historical Association, 2004*

(Front) This site was the location of active mill operations from 1837-2007. The core of the current mill building was completed in 1888, with subsequent additions enlarging the complex as operations expanded. The most notable of these came in 1903, just after Lewis Parker acquired the mill. The 1903 addition was designed by J.E. Sirrine and added 400 looms and 17,000 spindles. (Reverse) The adjacent dam and mill pond were completed in 1904 and represented an important shift in how the mill was powered. The energy generated by the falling water as it dropped 40 feet from the mill pond to the South Tyger River below was harnessed by a 2,300 volt water wheel-driven generator and 75 H.P. induction motor. These, in turn, drove a series of belts and pulleys that powered mill equipment. Apalache Mill was listed in the National Register of Historic Places in 2015. ### 43-53 WWII Prisoner of War Camp  
**Shaw Air Force Base, Sumter**  
*(Front)* From 1942 to 1945 more than 400,000 Axis-power prisoners of war were shipped to the United States from Europe and North Africa. Nearly 500 prisoner-of-war camps were built to house them, predominately in the South and Southwest. More than twenty camps were built in S.C., including one at this site on Shaw Field. Opened in March 1945, it operated only briefly and housed several hundred German prisoners.
Many of the prisoners worked as laborers on local farms that were experiencing steep labor shortages with so many military-age men fighting in the war. Farmers paid both the laborers and the U.S. Government for their work. Later, many of the POWs were sent back to Europe to help rebuild cities devastated by war. Most were repatriated to Germany by 1947. Some POWs would later return and obtain U.S. citizenship. Sponsored by Shaw AFB, United States Air Force, 2019

CORNER OF N. PINCKNEY ST. & WEDGEWOOD CT., UNION
(Front) This cemetery, the oldest in Union, was established ca. 1817 and sometimes called the “village cemetery.” In 1818 a Presbyterian “union” church used by other denominations as well moved here from a 1783 site about 2 mi. E. Alexander Macbeth then deeded the cemetery to the elders for use as a “burying ground of a Presbyterian Meeting House.”

Jeter (1827-1883) are buried here. This is also the site of the first Union Presbyterian Church, a frame church built ca. 1819 and which was sold to the Union City School District in 1883. One of the most successful of Franklin D. Roosevelt's New Deal programs was the Civilian Conservation Corps (CCC), created in 1933. It gave many young men and World War veterans jobs planting trees, fighting forest fires and soil erosion, and building state and national parks. Almost 50,000 men served in S.C. between 1933 and 1942. York County included three CCC camps: Kings Mountain, York, and here at Ebenezer.

**FRIENDSHIP SCHOOL (Front)**
Friendship College, on this site from 1910 to 1981, was founded in 1891 by Rev. M.P. Hall and sponsored by the Sunday Schools of the black Baptist churches of York and Chester counties. It first met in nearby Mt. Prospect Baptist Church before acquiring 9 acres here in 1910. Also called Friendship Normal and Industrial Institute, it was chartered in 1906 and combined an elementary and secondary school curriculum with an industrial education for much of its history. **FRIENDSHIP JUNIOR COLLEGE (Reverse)**
Dr. James H. Goudlock was president here 42 years, 1931-1973. The college dropped grades 1-7 in 1938, then dropped grades 8-12 in 1950 and became Friendship Junior College. In 1960-61, students who protested segregation at “sit-ins” at McCrory’s on Main St. became pioneers of the Civil Rights Movement. The struggling junior college closed in 1981, and the buildings on this site were demolished in 1992. **Sponsored by the African-American Cultural Resources Committee of Rock Hill, 2014**

Church. Its first pastor, Rev. Thomas S. Gilmore (1855-1938), served here 55 years, until his death in 1938. The first permanent church, a frame building, burned and was replaced by a second frame church about 1900.

(Reverse) In 1891 Mount Prospect hosted the first classes of Friendship College, founded by Rev. M.P. Hall to offer an education to Rock Hill blacks before there was a public school for them. The school held classes here until 1910. The second church burned in 1914, and this brick church, with Romanesque Revival elements, was built in 1915. It was listed in the National Register of Historic Places in 1992. **Sponsored by the African-American Cultural Resources Committee of Rock Hill, 2014**

**46-60 NEW MOUNT OLIVET A.M.E. ZION CHURCH**

**527 S. DAVE LYLE BLVD., ROCK HILL**

(Front) This church, organized in 1873, held its first services in private homes and then under a brush arbor on Pond St., near the railroad tracks. First called Mt. Olivet Methodist Zion Church, it bought this tract in 1896 and built its first permanent church, a frame building, in 1898. Renamed Mt. Olivet A.M.E. Zion Church ca. 1900, it built this brick church 1923-27, under Revs. J.D. Virgil and C.L. Flowers.

(Reverse) The church was renamed New Mount Olivet A.M.E. Zion Church in 1937. In May 1961, when an interracial group sponsored by the Congress of Racial Equality (CORE) launched the first Freedom Rides from Washington to New Orleans, the first violent opposition in the South occurred in the bus station in Rock Hill. That night this church held a mass meeting to honor and support the Freedom Riders. **Sponsored by the African-American Cultural Resources Committee of Rock Hill, 2014**

**46-61 WILLIAM BRATTON PLANTATION/BATTLE OF HUCK’S DEFEAT**

**1444 BRATTONSVILLE RD., MCCONNELLS**

**WILLIAM BRATTON PLANTATION** (Front)

In 1766 William Bratton and his wife Martha Robertson purchased 200 acres on the South Fork of Fishing Creek and built a single-pen log house here at the junction of several important colonial roads. The Bratton home was the first in what would become the community of Brattonsville. Bratton was an important civil leader, serving also as an officer in the patriot militia during the Revolution.

**BATTLE OF HUCK’S DEFEAT** (Reverse)

James Williamson also settled on Fishing Creek in 1766 and built a log house 400 yards SE of here. On July 12, 1780, 120 British and loyalist troops, led by Capt. Christian Huck, camped at the Williamson home. They were attacked and defeated by 140 local patriot militiamen led by Col. William Bratton and other officers in the Battle of Williamson’s Plantation, or “Huck’s Defeat.” **Sponsored by Culture & Heritage Museums of York County, 2015**

46-62 CELANESE CELRIVER PLANT
I DUNKINS FERRY RD., ROCK HILL, OFF CHERRY ROAD AT THE SITE OF THE OLD CELANESE CELRIVER PLANT
(Front) This plant, once called “a miracle of modern technology,” produced synthetic yarn and fibers for clothing, synthetic flakes for making plastic household and industrial goods, and other synthetics from 1948 to 2005. The Celanese Corporation of America chose this 1,100-acre site on the Catawba River for its capacity of 100 million gallons of water a day. The plant began operations in 1948.
(Reverse) The plant had its own power plant, water purification and treatment plants, and chemical recycling. It was long among the largest employers in York Co., with an average of 1,600 and a peak of 2,300. Its work force was unionized, unlike most S.C. industries. At one time this plant was one of the largest producers of synthetic yarn in the U.S. As global demand for its products slowed, Celanese Celriver closed in 2005. 46-63 BATTLE OFSTALLINGS’ PLANTATION
S.C. HWY. 5 AT ENTRANCE TO DERBY DOWNS SUBDIVISION, APPROXIMATELY FOUR MILES EAST OF YORK
(Front) In 1768 John Stallings purchased 470 acres on Millican’s Branch on Fishing Creek. During the American Revolution, Stallings (known locally as “Stallions”) remained loyal to the British, but his wife, Sarah Love Stallings, was a Patriot. Such family divisions were common during the Revolution.
(Reverse) In the late summer of 1780, Patriots and Loyalists met in a brief battle at Stallings’ Plantation. Stallings’ brother-in-law, Cpt. Andrew Love, and Col. Thomas Brandon led 50 Patriot militiamen against 35 Loyalists camped at Stallings’ home. Although the Loyalists were defeated, Sarah Stallings was accidentally killed. 46-64 YORK COUNTY COURTHOUSES
CORNER OF S. CONGRESS ST. AND E. LIBERTY ST., YORK
(Front) There have been four York County courthouses on this site. The first courthouse was constructed of squared logs in 1786. In 1799 it was replaced by a small brick building. Noted S.C. architect Robert Mills designed a third courthouse, completed in 1825. This building was constructed of local granite and red brick, with a large portico and Doric columns. The second story was badly damaged by an accidental fire in 1892.
(Reverse) The 1825 courthouse was remodeled following the 1892 fire. It was replaced by a Classical style courthouse completed in 1915. Designed by William Augustus Edwards, the courthouse was one of nine Edwards designed county courthouses in S.C. The monumental two-story yellow brick building features a colossal Ionic tetrastyle portico. It was listed in the
National Register of Historic Places in 1981 and renovated in 2016. **Sponsored by the Yorkville Historical Society and the Culture & Heritage Museums of York County, 2016**

**46-65 Elias Hill Homeplace/Liberian Migration**

**5780 Allison Creek Rd., Rock Hill vicinity**

**Elias Hill Homeplace (Front)**
Elias Hill (1819-1872) was born enslaved at Hill’s Ironworks on Allison Creek. He and his parents were emancipated prior to 1860. Although physically paralyzed at an early age, Elias was well educated and became a Baptist minister, a school teacher, and a Union League leader. In 1869 he purchased 40 acres from J.M. Ross on Allison Creek 1/4 mi. E of here.

**Liberian Migration (Reverse)**
During Reconstruction (1865-1877), the Ku Klux Klan persecuted Rev. Hill and other freedmen in York County. In October 1871, 166 free blacks from Clay Hill emigrated to Liberia, West Africa, led by Elias Hill, Solomon Hill, June Moore, and Madison, Harriet, and George Simril. Arriving in Liberia in December, they began new lives at Arthington as planters and political leaders. **Sponsored by Culture & Heritage Museums and Allison Creek Presbyterian Church, 2017**

**46-66 Wright Funeral Home**

**8 Hunter St., York**
(Front) Isaac “Bub” Wright Jr. was a master craftsman who began making caskets in the early 1900s. In 1914 he began Wright Funeral Home at this location. The two-story building here served as a funeral parlor and chapel, with an embalming room in the rear. Later, a pressing club (dry cleaners) also operated at the rear of the building. The second floor served as a casket making shop. Isaac Wright died in 1918, but his widow, Fannie C. Wright, continued to operate the business.

(Reverse) Wright Funeral Home was among the earliest black-owned businesses in York and remains family-owned after 100 years. It played an important role serving the African American community during the era of racial segregation. The Wright family also operated a grocery store, which was replaced by a modern brick funeral home in 1985. In 1998, the original funeral home building was repurposed as the Alice Wright Smith Historical Museum. **Sponsored by the Yorkville Historical Society, 2018**

**46-67 Brick House/Lynching of Jim Williams**

**Brick House (Front)**
In 1841, Dr. John S. Bratton began construction of a new, all-brick two-story house at Brattonsville. Completed c.1843, the Greek Revival building housed the Brattonsville Store and Post Office. A two-story rear frame section was added c.1855 to house the Brattonsville School. Napoleon Bratton took over the store by 1870 and constructed a new store building c.1885. It closed in 1915.
LYNCHING OF JIM WILLIAMS (Reverse)
In March 1871, York Co. Ku Klux Klan members, led by Dr. J. Rufus Bratton, lynched black militia Capt. James Williams, hanging him from a tree near his home 1.5 miles away. His body was carried to the Brick House the next day where a coroner’s inquest was held. The murder was part of a wave of Reconstruction-era Klan violence that led to a declaration of martial law in nine S.C. counties. Sponsored by Culture and Heritage Museums of York County, 2019

46-68 GEORGE FISH SCHOOL
401 STEELE ST., FORT MILL
(Front) This was the site of Fort Mill’s longest operating school dedicated to African Americans. Built on a 4-acre parcel acquired in 1925, the brick school opened in 1926 and cost $12,200, a portion of which was paid by the Julius Rosenwald Fund. The school was named for George Fish (1868-1933), a white mill manager who supported its construction. African Americans were previously taught at the old Fort Mill Academy building 1 mi. SW.
(Reverse) The design of the George Fish School followed the Rosenwald Fund’s six-teacher floor plan and included six classrooms, an auditorium, stage, and library. By the 1930s, the school enrolled grades 1-8 before adding a ninth grade and, by 1941, a high school. It remained a segregated school for African Americans until 1968, when it integrated and became Fort Mill Jr. High. The school was sold in 1986 and later demolished. S.C. HISTORICAL MARKERS
SELECT SUBJECT GUIDE

This guide classifies S.C. Historical Markers according to their associations with the following select eras and subjects: Colonial Era, the American Revolution, the Civil War, Reconstruction, World Wars I and II, African Americans, Native Americans, Women, Agriculture, and Industry. It is not a comprehensive subject index for all markers, as many do not fit in any of these categories and are therefore unlisted.

Markers have been classified based only on the information that is included in the actual marker text, not on whether the marker subject generally has any associations with a category. For instance, nearly every antebellum plantation in South Carolina has an association with agriculture and African Americans, however markers for such properties have only been listed under these categories if they explicitly reference topics like crop cultivation or enslaved labor. Effort has been made to classify markers under specific groups of people only if a marker depicts members of that group as active subjects, and not if they are solely mentioned in relation to people who are not part of that group, e.g. markers that mention women only as the mother, daughter, or sister of male subjects.

FREQUENTLY ASKED QUESTIONS

What are the numbers at the top of each marker?

The first number is the code for the county where a marker is located, and the second number indicates how many markers have been approved for that county. For example, marker 46-60 was the sixtieth marker approved for York County, alphabetically last among the state's forty-six counties.

I tried to visit a marker listed in the guidebook but couldn't find it. Why?

Markers are sometimes removed or relocated without SCDAH (or the sponsor) being notified. This is usually due to damage or road construction. If you are unable to find a marker at the location provided in the guidebook, please notify the marker program coordinator.

Who may apply for a new marker?

Organizations may apply for new markers. These are typically but not exclusively historical societies, civic organizations, and local or county governments. Sponsoring organizations do not have to be registered as a 501(c)3. Individuals may not apply for markers, however they may request an organization sponsor a marker on their behalf.

Does SCDAH or the State of S.C. ever erect markers?

Some state agencies and commissions have sponsored marker projects, however SCDAH does not receive funds to erect new markers.

What types of subjects are eligible for S.C. Historical Markers?

The marker program's core purpose is to mark historically significant places, with marker texts serving to interpret those subjects that make a place important. S.C. Historical Markers have been approved for a wide variety of
subjects, including events, buildings (extant or non-extant), sites (e.g. battlefields, cemeteries, neighborhoods), historical activities/functions, institutions (e.g. schools, churches), and individual persons. Markers may discuss topics of local, state, or national significance. Once a subject is approved, marker texts are subject to more specific criteria available at the SCDAH website or from the program coordinator.

Where should markers be located?

Markers should ideally be located at the place with the most meaningful connection to the marker subject, or close enough to such a place that the marker may easily direct readers to that site. Markers focused on individuals are subject to additional location criteria. Please contact the program coordinator for further explanation of eligible marker locations.

SCDAH only reviews marker locations for their interpretive value. Sponsors are responsible for ensuring their preferred location complies with any applicable local, county, or state regulations. If sponsors wish to erect the marker on private property, they are responsible for obtaining the permission of the property owner.

Who is responsible for maintaining markers?

While SCDAH approves new markers, the physical markers belong to the organizations that sponsor and pay for them. Sponsors are therefore expected to clean and repair markers as necessary. Some local governments maintain markers that have been donated to them and erected in their right-of-way. SCDAH does not receive funds to maintain markers.

Who writes the marker texts?

Marker texts are the product of a dialogue between SCDAH and the marker sponsor. Usually, the marker program coordinator drafts an initial marker text based off materials provided by the sponsor as well as other available resources. Sponsors then give feedback on the initial text, which is revised until they and
the coordinator agree to a final text. This final text is then reviewed by the director of SCDAH and either approved or returned for revisions.

If a property has a state historical marker, does that mean it’s an officially designated historic site?

No. Being approved for an S.C. Historical Marker does not convey any official “historic” status to a property. It does not entitle the owner to any financial resources, nor does it place any restrictions on what may be done to a property.

How can I learn more about a particular marker project?

SCDAH maintains files on the S.C. Historical Marker Program going back to 1936, though information may not be available on every individual marker. Files on specific markers may be requested and viewed in the research room at the S.C. Archives & History Center.

My group sponsored a marker, and we’d like to have one of those brown “Historical Marker ½ mile” signs posted nearby. How do we do that?

Applications for these signs should be submitted to your S.C. Department of Transportation (SCDOT) engineering district office. Find your district contact information here.

How long does it usually take to process applications for new markers?

Processing times vary due to several factors, including the difficulty of research, the volume of other pending applications, and a sponsor’s responsiveness to communications from SCDAH. However, once work begins on an application, an initial draft text is usually ready for sponsor review within 3-4 weeks. Draft texts virtually always require some revisions, and multiple drafts may be necessary before the text is finalized. Once the text is finalized, marker sponsors then order their marker directly from the manufacturer. Standard production time from when an order is received is 12 weeks.
HOW TO APPLY

Application forms for new S.C. Historical Markers may be downloaded from the Historical Markers page of the SCDAH website or requested from the program coordinator. Along with this form, marker applicants should submit the following materials in hardcopy to the program coordinator:

- **Narrative summary** of the proposed marker subject’s history (1-2 paragraphs)
- **Copies of source materials** used to prepare the summary. These should be primary sources and/or footnoted secondary sources.
- **Application/research fee** - $250, payable to S.C. Department of Archives & History

**Drafting the Text**

If the proposed subject meets SCDAH criteria, the marker program coordinator will draft an initial marker text using the materials submitted by the sponsor as well as other available resources. This initial draft will be revised in conversation with the sponsor and ultimately reviewed by the director of SCDAH. Applicants do not need to attempt to write the actual marker text, which must conform to specific character and spacing guidelines set by the marker manufacturer. Sponsors are welcome to propose their own marker texts, however SCDAH cannot guarantee how much if any of the proposed wording will be used.

**Ordering the Marker**

Once the marker text is finalized and approved by the director of the SCDAH, sponsors coordinate directly with marker manufacturer Sewah Studios to place their order and arrange shipment and delivery. The cost to manufacture markers is paid to Sewah Studios, not to SCDAH. Current prices for S.C. Historical Markers (effective through May 1, 2020) are:

- **City-Size Markers**, 1" letters, 24"x36"
  - $1900.00 same text on both sides
$2090.00 different text on each side

**Country-Size Markers**, 1.5” letters, 42”x32”

$2020.00 same text on both sides

$2200.00 different text on each side

Prices above are in addition to the $250 application/research fee and include a 7’ post and all shipping costs.

**Installing the Marker**

Sponsors are responsible for installing their marker and ensuring its location complies with all applicable local and state regulations.

Sponsors who wish to erect their marker in a state right-of-way must contact their county South Carolina Department of Transportation (SCDOT) Maintenance Engineer to obtain an encroachment permit. SCDOT does not install or maintain markers for sponsors. Markers erected in an SCDOT right-of-way also require additional safety equipment that must be ordered separately from the marker itself.

Local marker regulations vary depending on the municipality or county of installation. Sponsors should contact their local government to determine whether their proposed location requires them to take any additional steps.
