### **1. New Policy on the Term “Potentially Eligible”**

The South Carolina State Historic Preservation Office is recommending the elimination of the term “potentially eligible” from all cultural resource surveys and documents. For more information, please see our website:

<http://www.shpo.sc.gov/properties/survey/>

### **2. Archsite Map Requirement for Section 106 Project Review**

Due to diminishing staff resources, the SC SHPO will not review Section 106 Project Review packages that do not include the requested Archsite map. Archsite is the state’s cultural resources mapping tool and can be accessed here:

<http://archsite.cas.sc.edu/ArchSite/> Public view maps are acceptable for submissions, however we suggest the subscription view for organizations that initiate multiple Section 106 reviews throughout the year. Subscription view allows the user to view both above ground cultural resources, as well as archaeological sites. More information on subscribing can be found here:
