Tax Credit Spotlight

This month's spotlight features a mid-19th century, two-story wood-frame house located in the Charleston Historic District. Beginning in 2019, the current owners undertook a sensitive rehabilitation that included: repairs and replacement of terracotta, slate, and copper roofing; repointing historic mortar; stabilizing the foundation with additional piers and sistered joists; repairs and replacement of the piazza decking and structure; and increasing energy efficiency of the residence with crawlspace insulation and a new HVAC system in a secondary space of the property. During the rehabilitation, the interior floor plan was preserved and no significant alterations were made. This rehabilitation earned the homeowners a state income tax credit equal to 25% of eligible expenses. For more information about the homeowner tax credit program, please visit this [link](#).
