# E-Records and You:

## Risk Mitigation & the SC Electronic Records Archive

John T. ...

# Articles

## Why is it needed?

- ER/IT may not always be considered in a disaster plan
- The Nature of ER
- Data recovery vendors are very expensive

In Witness

John T. Lay

# Articles

## Risks to Electronic Records

- Fire
- Flood
- Power surges and electrical failures
- Hardware failure
- File format obsolescence
- Hacking
- Data degradation

## Prevention and Mitigation

- Regular backups!
- Use antivirus software and keep it updated
- Adequate technology training for staff
- A laptop with one or more spare batteries
- Digital security is as important as physical security
- Computer equipment inventory
- Electronic records inventory

# Articles

## Protecting Hardware

- Keep servers in secured room - limited access
- Keep computer towers off the floor
- Keep hardware away from leak sources
- Power down and unplug computer equipment in an impending emergency

# Articles

## Protecting Removable Media

- Stable temperature and humidity for storage
- Avoid food or drink in areas where media are stored
- Keep in cases or sleeves except when in use
- Avoid sunlight and UV exposure
- Handle optical media (CDs and DVDs) only by the edge
- Sample media occasionally to check readability
- 5-10 years of shelf life for optical media and flash drives
- Floppy disks = if they work, be impressed

Search

## Welcome to SCERA

On this site you will find Electronic Records transferred to the South Carolina Department of Archives and History by state and local government agencies for permanent retention. You will also find digitized copies of physical records held at the archives and made accessible online for your convenience. Feel free to explore this site. You may use keyword/full-text search to find specific items or you can browse these holdings. We suggest that if you do use a keyword search, you also browse nearby records to see related materials.

For a description of how the records held by the Archives are structured, please visit this page on the Department of Archives and History's main website.

Links to archival versions of various state government websites can be accessed online by following this link.

Digitized versions of some of the most frequently used colonial and antebellum records in the Archive's holdings are available via the Online Records Index available at this link.

### Records Currently in SCERA

Click one of the links below to see a current list of records that are available to the public through SCERA. Each page contains links to the relevant records. These lists are updated regularly as new materials are added.

- [Birth Certificates, 1915-1917](#)
- [British and Private Records](#)
- [Local Records](#)
- [State Records](#)
- [Constitutional and Organic Papers](#)
- [Map Collection](#)

### Viewing This Site

This site is best viewed with Mozilla Firefox or Google Chrome. If you use Microsoft Internet Explorer and have it set to compatibility mode, SCERA pages will not load correctly. If the pages do not appear to load properly, you may either try using one of the above browsers or turn off compatibility mode in Internet Explorer. If active, the compatibility mode icon (a piece of paper with a squiggle through it) on the far right side of the web address bar will be highlighted in blue. To turn it off, click on the icon. It should now be gray and compatibility mode is now turned off. If you are accessing SCERA with a tablet or on mobile, the site is best viewed in landscape.
